

Procedures to Administer Import Adjustment Offset Amounts for Certain Imports of Automobile Parts Under Proclamation 10908, as Amended

Introduction:

This instrument implements the procedures for automobile manufacturers to apply for and use the import adjustment offset amount established by Presidential Proclamation 10925 of April 29, 2025, “Amendments to Adjusting Imports of Automobiles and Automobile Parts Into the United States,” (Proclamation 10925), as amended, “Procedures To Administer Import Adjustment Offset Amounts for Certain Imports of Automobile Parts Under Proclamation 10908, as Amended”, and “Adjusting Imports of Medium- and Heavy-Duty Vehicles, Medium- and Heavy-Duty Vehicle Parts, and Buses Into the United States,” (Proclamation 10984) to incentivize domestic automobile and MHDV production and reduce American reliance on imports of foreign automobiles and MHDVs and their parts. Eligibility for the import adjustment offset amount is based on domestic final assembly of automobiles and MHDVs during an approximately five-year period. Import adjustment offset amounts awarded for qualifying automobiles assembled between April 3, 2025, and April 30, 2030, and qualifying MHDVs between November 1, 2025, and October 31, 2030, may be carried forward beyond that period until the full approved import adjustment offset amount is exhausted. No new import adjustment offset amounts will be granted for automobiles assembled after April 30, 2030 or for MHDVs assembled as after October 31, 2030. The intent of this program is to strengthen the U.S. automobile and MHDV assembly operation capabilities and ensure national security objectives are met by reducing reliance on foreign automobile and MHDV production and parts sourcing.

How to Submit Application:

Applications must be submitted electronically to: autooffset@trade.gov and MHDV232USMCAContent@trade.gov.

Application Requirements

Manufacturers seeking an import adjustment offset amount must submit the following documentation for each period for which an import adjustment offset amount is sought:

1. **Production Forecast:** The number of automobiles (i.e., passenger vehicles (sedans, sport utility vehicles, crossover utility vehicles, minivans, and cargo vans) and light trucks) and MHDVs projected to be produced in the United States by make and model and the plant locations where the projected automobiles and MHDVs will undergo final production during each reporting period.

2. **MSRP or Aggregate Value:** For Automobiles: The aggregate MSRP value of all such automobiles assembled in the United States during each reporting period. For MHDVs: The aggregate value of all such MHDVs assembled in the United States during each reporting period; manufacturers must calculate this figure using whichever of the following three valuation methods they used in the ordinary course of trade prior to November 1, 2025: MSRP, Dealer Net Cost, or Factory List Price.
3. **Tariff Liability Estimate:** For Automobiles: Projected automobiles and automobile parts tariff liability under Proclamation 10908 or under clause 12 of Proclamation 10984, broken down by Proclamation 10908 and 10984 tariff costs the manufacturer will incur directly and Proclamation 10908 and 10984 tariff costs the manufacturer's suppliers will incur. For MHDVs: Projected MHDV and MHDVPs tariff liability under clauses 1, 7, and 12 of Proclamation 10984, broken down by Proclamation 10984 tariff costs the manufacturer will incur directly and Proclamation 10984 tariff costs the manufacturer's suppliers will incur.
4. **Offset Calculation:** For MHDVs and Automobiles: Requested total import adjustment offset amount for each reporting period, including details of how such amount was calculated.
5. **Importers of Record:** A list of authorized importers of record eligible to decrement against the manufacturer's import adjustment offset amount. This list must include the importer's Importer of Record number and the amount of the import adjustment offset amount allotted to each importer of record. Updates to this list may be submitted electronically to Commerce at autooffset@trade.gov and MHDV232USMCAContent@trade.gov. At its discretion, Commerce may update this list at other times during the program period.
6. **Certification:** A sworn statement from a senior officer of the manufacturer confirming that the submission is true, accurate, and complete to the best of the manufacturer's knowledge under penalty of perjury, and confirming that the manufacturer has conducted reasonable diligence to verify the accuracy of the assertions and facts contained in its submissions.
7. **Additional Information:** Any other information the applicant feels is necessary to facilitate decision making.

Review and Approval Process

Commerce will review applications for completeness. Commerce may request, in writing, supplemental documentation or clarification. Approved manufacturers will be notified in writing of approval and amount

of offset granted, and relevant import adjustment offset amount data, including amounts and importer of record numbers, will be transmitted by Commerce to CBP. CBP will administer the offset at the time of entry summary filing and may request additional documentation to validate entries.
