

Procedures to Administer Import Adjustment Offset Amounts for Certain Imports of Automobile Parts Under Proclamation 10908, as Amended

Introduction

This instrument implements the procedures for automobile manufacturers to apply for and use the import adjustment offset amount established by Presidential Proclamation 10925 of April 29, 2025, “Amendments to Adjusting Imports of Automobiles and Automobile Parts Into the United States,” (Proclamation 10925) to incentivize domestic automobile production and reduce American reliance on imports of foreign automobiles and their parts. Eligibility for the import adjustment offset amount is based on domestic final assembly of automobiles during an approximately two-year period. Import adjustment offset amounts awarded for qualifying automobiles assembled between April 3, 2025, and April 30, 2027, may be carried forward beyond that period until the full approved import adjustment offset amount is exhausted. No new import adjustment offset amounts will be granted for automobiles assembled after April 30, 2027. The intent of this program is to strengthen the U.S. automobile assembly operation capabilities and ensure national security objectives are met by reducing reliance on foreign automobile production and parts sourcing.

How to Submit Application

Applications can be submitted starting June XX, 2025.

Applications must be submitted electronically to: autooffset@trade.gov

Application Requirements

Manufacturers seeking an import adjustment offset amount must submit the following documentation for each period for which an import adjustment offset amount is sought (*i.e.*, one set of documentation for the period of April 3, 2025 through April 30, 2026; and a separate set of documentation for the period of May 1, 2026 through April 30, 2027):

1. **Production Forecast:** The number of automobiles (*i.e.*, passenger vehicles (sedans, sport utility vehicles, crossover utility vehicles, minivans, and cargo vans) and light trucks) projected to be produced in the United States by make and model and the plant locations where the projected automobiles will undergo final production during each reporting period.
2. **MSRP:** The aggregate MSRP value of all such automobiles (*i.e.*, passenger vehicles (sedans, sport utility vehicles, crossover utility vehicles, minivans, and cargo vans) and light trucks) assembled in the United States during each reporting period.

3. **Tariff Liability Estimate:** Projected automobiles and automobile parts tariff liability under Proclamation 10908, broken down by Proclamation 10908 tariff costs the manufacturer will incur directly and Proclamation 10908 tariff costs the manufacturer's suppliers will incur.
4. **Offset Calculation:** Requested total import adjustment offset amount for each reporting period, including details of how such amount was calculated.
5. **Importers of Record:** A list of authorized importers of record eligible to decrement against the manufacturer's import adjustment offset amount. This list must include the importer's Importer of Record number and the amount of the import adjustment offset amount allotted to each importer of record. Updates to this list may be submitted electronically to Commerce at autooffset@trade.gov. Commerce will inform CBP of list updates on December 1, 2025; June 1, 2026; and December 1, 2026. At its discretion, Commerce may update this list at other times during the program period.
6. **Certification:** A sworn statement from a senior officer of the manufacturer confirming that the submission is true, accurate, and complete to the best of the manufacturer's knowledge under penalty of perjury, and confirming that the manufacturer has conducted reasonable diligence to verify the accuracy of the assertions and facts contained in its submissions.
7. **Additional Information:** Any other information the applicant feels is necessary to facilitate decision making.

Review and Approval Process

The Department will review each submission for completeness and compliance. The Department may request supplemental documentation or clarification. Upon verification by the Department that a submission is consistent with this notice and upon a determination of the value of the U.S. content and non-U.S. content for the requested model line, the Department will inform the importer and U.S. Customs and Border Protection (CBP) of that determination and of the value of the non-U.S. content for each model line. The Commerce Department will provide CBP with a list of importers and automobiles authorized by Commerce, including importer name, importer of record number, manufacturer name, manufacturer facility, country of origin, and year, make, and model of each authorized automobile.
