This form must be completed and submitted to the National Marine Fisheries Service (NMFS) at the address given above to apply or re-register for a first receiver site license (FRSL). A FRSL authorizes a buyer to receive, purchase, or take custody or control of an IFQ landing at the physical location of the facility given on the license. To complete the application process, any Economic Data Collection surveys due from the FRSL applicant must be deemed complete by the NOAA/Northwest Fisheries Science Center. The applicant must also submit supplemental documentation, described below. A first receiver site license is effective upon approval by NMFS.

Section C – Small Business Certification

As part of required analyses of the economic effects of rulemakings, The National Marine Fisheries Service (NMFS) must determine if permit and license owners participating in the fishery are large or small businesses as defined by the Small Business Administration (SBA).

SBA has established size criteria for all major industry sectors in the US, including fish harvesting and fish processing businesses. The SBA also has established "principles of affiliation" to determine whether a business concern is "independently owned and operated": business concerns are affiliates of each other when one concern controls or has the power to control the other, or a third party controls or has the power to control both. NMFS is now using the following size standards:

Primary Business:	Fish Harvesting	Seafood Product Preparation and Packaging*	Fish and Seafood Wholesale	Nonprofit Organizations
Small business size standard:	Combined annual receipts of \$11 million or less for all affiliated operations worldwide.	Employs 750 or fewer persons on a full time, part time, temporary, or other basis, at all affiliated operations worldwide.	Employs 100 or fewer persons on a full time, part time, temporary, or other basis, at all affiliated operations worldwide.	Environmental, conservation, or professional organizations: Combined annual receipts of \$15 million or less. Other organizations: Combined annual receipts of \$7.5 million or less.

*includes catcher/processors and motherships

Is your business or organization:

- Independently owned and operated, and
- not dominant in its field of operation (including any affiliates), and
- considered small by the standards listed in the table above?

If you answered yes to all three questions, please check here:

If you answered no to any of these questions, please check here:

You must check one box.

If you have any questions about these standards or the definition of affiliation, please call West Coast Regional Economist, Abigail Harley, at 206-526-4273.
