

SUPPORTING STATEMENT - PART A

USMC Dependency Statement Child Born Out of Wedlock Under Age 21

OMB Control Number 0712-0010

1. Need for the Information Collection

The NAVMC Form 1750/13, "USMC Dependency Statement Child Born Out of Wedlock Under Age 21" is needed to assist USMC Installation command representatives and the Marine and Family Programs Division, Defense Enrollment Eligibility Reporting System (DEERS)/ Dependency Determination Section (MFP-1) in properly making informed Basic Allowance for Housing (BAH) entitlement determinations for claimed children under the age of 21 born out of wedlock to non-service member partners and who do not reside within the household of the service member. The collection provides formal documentation and respondent attestation of overall financial support case facts, which is a particularly critical piece of documentation in cases where the legitimacy of primary dependency status or service member BAH entitlement claim is deemed questionable to the USMC.

Authorities to collect the information:

- 10 U.S.C. 8041, "Headquarters, Marine Corps," is to assist the Secretary of the Navy in carrying out his responsibilities.
- DoD FMR 7000.14-R, Vol. 7A, Ch. 26, "Housing Allowances," assigns dependency determination responsibility for the Marine Corps to the Marine and Family Programs Division, Defense Enrollment Eligibility Reporting System (DEERS)/ Dependency Determination Section (MFP-1) to determine relationships and dependency for secondary dependents and individuals whose status as a primary dependent is questionable for the USMC.
- MCO 1751.3, "Marine Corps Dependency Determination and Support Program..." establishes policy and procedural guidance for commanders and administrative personnel regarding dependency determinations for BAH entitlements as mandated by DoD FMR 7000.14-R, Vol. 7A, Ch. 26 "Housing Allowances."

2. Use of the Information

The information collected will be used to support Installation/Command level and MFP-1 dependency determinations and BAH entitlement decisions for children under the age of 21 born out of wedlock to non-service member guardians not residing in the service member's household. Respondents are made aware of this collection through MCO 1751.3 Ch1 and their Installation Personnel Administration Center (IPAC). The respondents can obtain a copy of NAVMC 1750/13 through the Navy/Marine Corps forms website (<https://forms.documentservices.dla.mil/order/>) or from their IPAC via email. IPAC contact information for respondents to seek assistance with obtaining, completing, or

submitting the NAVMC 1750/13 is outlined in their IPAC's Standard Operating Procedures (SOP). A sample of the IPAC SOP is attached to this package.

The service member requesting the BAH entitlement completes sections 1 and 2 on the digitally fillable NAVMC 1750/13 and signs the form. The non-service member guardian of the claimed dependent completes sections 3-12 on the NAVMC 1750/13, prints the document, signs in the presence of a Notary Public, and has the form notarized to officially confirm their responses. The minors themselves are not authorized respondents. Respondents submit their completed and notarized NAVMC 1750/13, along with any appropriate supporting documentation related to their individual responses, via email or in person to their IPAC personnel officer as directed by their IPAC's SOP. Cases are typically adjudicated by the IPAC personnel officer at the Installation/Command level and the approval decision for BAH entitlement is communicated to the respondent telephonically. The IPAC personnel officer elevates cases that can't be resolved at the Installation/Command level to MFP-1 at mfp1@usmc.mil. MFP-1 will then make a final determination based on the provided documentation and reply back to the IPAC personnel officer, who telephonically notifies the respondent of the result of the dependency determination/BAH entitlement decision.

3. Use of Information Technology

The NAVMC 1750/13 is distributed and collected via email, and respondents complete sections 1-12 electronically on the fillable PDF. The collection cannot be conducted 100% electronically, as signatures required in section 13 must be done on a printed hard copy with a Notary Public present to certify the legitimacy of the provided information.

4. Non-duplication

The Defense Finance and Accounting Service (DFAS) is the dependency determination authority for Army, Air Force, and Navy, and previously sponsored DD Form 137-4 (under OMB 0730-0014) to collect dependency determination information for dependents born out of wedlock. DD 137-4 was discontinued in 2015 due to a change in policy where DFAS considers children born out of wedlock to be considered primary dependents who do not require further dependency determination. Under DoD FMR 7000.14-R, Vol. 7A, Ch. 26 "Housing Allowances," USMC dependency determinations are conducted at the Installation/Command level, with final decision authority on cases deemed questionable conducted at the MFP-1 level. The NAVMC 1750/13 replaced DD Form 137-4 to assist Installation command personnel officers and MFP-1 in making informed and fact-based dependency and BAH eligibility determinations. The form also provides justification and formal documentation of due diligence conducted in cases where legitimacy of the dependency claim is deemed questionable. Due to the discontinuation of DD 137-4, the information obtained through this collection is unique and is not already available for use or adaptation from another cleared source.

5. Burden on Small Businesses

This information collection does not impose a significant economic impact on a substantial number of small businesses or entities.
