1. Introduction

The purpose of this document is to list all the data elements of the host site application collected online through the Fellowship Management System (FMS). The FMS online host site assignment module is a streamlined mechanism for agencies, who are interested in hosting fellows of the Centers for Disease Control and Prevention (CDC) fellowships to submit their assignment proposals online and track statuses of the application processes. The FMS is a robust flexible framework and is successfully tailored for various CDC fellowships. The following fellowships use the FMS Host Site Application module to collect applications from federal and non-federal public health agencies and organizations:

1. Epidemic Intelligence Service (EIS)
2. CDC E-learning Institute (ELI)
3. Epidemiology Elective Program (EEP)
4. Future Leaders in Infections and Global Health Threats (FLIGHT)
5. Laboratory Leadership Service (LLS)
6. CDC Steven M. Teutsch Prevention Effectiveness (PE) Fellowship
7. Public Health Associate Program (PHAP)
8. Public Health Informatics Fellowship Program (PHIFP)
9. Preventive Medicine Residency and Fellowship (PMR/F)
10. Population Health Training in Place Program (PH-TIPP)

1.1 Document Structure

This document is broken down by the major pages of the FMS Host Site Application. In this document, each page of the FMS Host Site Application has sections and some sub-sections. In addition, application instructions, login, and registration pages are included.

Following the screenshots in each section is a table that shows the status of the collection of data elements by each CDC fellowships. The following labels indicate the status of the collection:

- “Yes” indicates that the fellowship collects the information and that alumni are required to submit this information.
- “No” indicates that the fellowship does not collect this information.
- Open Text Response indicates an open text field for responding to the prompt

In addition, the table shows the data values of each data element, and for ones that have a list of dropdown values, the data value category is hyperlinked to its list located in the Appendix.

INSTRUCTIONAL TEXT

FOR PHIFP:

Supervisor/Mentor - Please provide information for each person at your host site who will serve as a supervisor or mentor to the fellow who is assigned to you

Add Missing Individual:

- If you cannot find your individual in the "Search and Select" lookup field above, add them to the Host Site Staff list by clicking here: [HYPERLINK](#)
- After you have added your individual, they will appear in the lookup field above

Incorrect Information:

- If the individual you selected has information that is incorrect or outdated, please let us know the correct information by submitting a System Help Desk Ticket.

INSTRUCTIONAL TEXT FOR PHIFP:

FOR PHIFP Each PHIFP fellow should ideally be supported by one supervisor and one or more mentors. One individual may serve as both supervisor and mentor. A supervisor is directly responsible for official supervision of the fellow, including all tasks mandated by the Office of Human Resources. This individual is responsible for interfacing with the fellowship to facilitate the fellow's completion of program requirements. A secondary supervisor may also be named who can act as the supervisor

in absence of a primary supervisor. The mentors are expected to provide formal or informal guidance and support to the fellow throughout their fellowship. Mentors should be able to commit at least one hour per two weeks to spend with the fellow through the fellowship.

8. Activities/Projects

8.1 Activity/Project Details

INSTRUCTIONAL TEXT

PE Project Details:

Provide a project description for the fellow assigned to your organization. The proposed project might include; a literature or systematic review, a cost analysis, a cost effectiveness analysis, or some sort of modeling activity.

- Two year time frame. The project and activities can be accomplished in two years
- Meet fellowship goals: The project/activity must evaluate cost, effectiveness, and/or overall impact of a public health program or activity.
 - Project detail: Each project must have enough detail to inform fellow decision-making during the application and match process. Assignment summaries will be shared with chosen applicants prior to interviews.
- Meet fellowship performance requirements: the proposal must allow for fellows to complete the required activities:
 - Develop two manuscripts suitable for publication
 - Deliver two scientific presentations
 - Develop one policy brief,
 - Deliver two methods-based educational sessions
- Allow for training: The proposal must allow for required training which will take up to 8% of the fellow's time.

PHAP Activity Details

Please list each activity that the associate will be performing related to the statement of need for the proposed assignment. There is no limit to the number of activities that can be entered, however, most successful applications contain between 6 and 10 activities. Keep in mind that the associate's level of responsibility and skills should build over time and increase from year 1 to year 2 of the program, and their activities should reflect this progression.

PHIFP INSTRUCTIONAL TEXT:

Please describe the activities and projects that will be available to your fellow during their 2 years at your host site. It is recommended that you provide fellows with a minimum of 2 projects/activities to increase the chances that their skills, aptitudes, and interests will align with the projects available to them.

QUESTION TEXT

PHAP Competencies

1.0 Analytic and Assessment

1.1 Identifies quantitative and qualitative data and information (e.g., vital statistics, electronic health records, transportation patterns, unemployment rates, community input, health assessments) that can be used to assess the health of a community

1.2 Uses information technology in accessing, collecting, analyzing, maintaining, and disseminating data and information

1.3 Applies ethical principles in accessing, collecting, analyzing, using, maintaining, and disseminating data and information, (e.g., managing personally identifiable information (PII))

1.4 Contributes to assessments of community health status and factors influencing health in a community (e.g., quality, availability, use of health services, access to affordable housing)

1.5 Explains how community health assessments use information about health status, factors influencing health, assets, and resources

1.6 Describes how evidence (e.g., data, findings reported in peer-reviewed literature, Community Guide) is used in decision making

2.0 Public Health Sciences

2.1 Describes the scientific foundation of the field of public health

2.2 Describes how public health sciences (e.g., biostatistics, epidemiology, environmental health sciences, health services administration, social and behavioral sciences, and public health informatics) are used in the delivery of the 10 Essential Public Health Services

2.3 Describes the roles of governmental public health, health care, and other partners in improving the health of a community

2.4 Describes public health as part of a larger inter-related system of organizations that influence the health of populations at local, national, and global levels

2.5 Applies knowledge of various approaches to improving population-based health

3.0 Program Planning, Management, and Improvement

3.1 Contributes to state/local/tribal/territorial and community health improvement planning (e.g., supporting data-related activities that contribute to community health assessment; supporting partnership development)

3.2 Contributes to the implementation of organizational strategic plan (e.g. participates in activities that support the host site's strategic plan, describes where their program aligns with the goals and objectives of their host site strategic plan)

3.3 Gathers information that can inform options for policies, programs, and services (e.g., secondhand smoking policies, data use policies, HR policies, immunization programs, food safety programs)

3.4 Gathers information for evaluating policies, programs, and services (e.g., outputs, outcomes, processes, procedures, return on investment)

3.5 Contributes to the implementation of a vision for a healthy community (e.g., emphasis on prevention, health for all, excellence, and innovation)

4.0 Public Health Policy and Law

4.1 Illustrates a basic understanding of how law and policy play a role in public health (e.g. environmental health codes, immunization requirements, anti-smoking policies, indoor air quality policies)

4.2 Describes how policy and legislation affect the health of a community (e.g., income, education, environment, demographic trends)

5.0 Professionalism

5.1 Incorporates ethical standards of practice (e.g., Public Health Code of Ethics) into all interactions with individuals, organizations and communities

5.2 Adheres to organizational policies and procedures

5.3 Describes how teams help achieve program and organizational goals (e.g., the value of different disciplines, sectors, skills, experiences, and perspectives; scope of work and timeline)

5.4 Exercises initiative, tact, flexibility, courtesy, diplomacy, and resourcefulness in establishing and continuing work relationships

5.5 Applies feedback to build professional knowledge, skills, and abilities

6.0 Communication

6.1 Communicates proficiently in writing and orally (e.g., using age-appropriate materials, incorporating relevant images, considering health literacy)

6.2 Communicates information that is clear, timely, accurate and uses plain language

6.3 Presents data and information to professionals and the public using a variety of approaches (e.g., reports, presentations, email, and letters)

6.4 Facilitates communication among individuals, groups, and organizations

6.5 Demonstrates active listening skills

7.0 Community Dimensions of Public Health

7.1 Supports relationships that improve health in a community (e.g., partnerships with organizations serving the same population, academic institutions, policy makers, customers/clients, and others)

7.2 Identifies current trends (e.g., health, fiscal, and environmental) affecting the health of a community

7.3 Collaborates with community partners to improve health in a community (e.g., participates in committees, shares data and information, connects people to resources)
