[Docket No. IC26-5-000]

COMMISSION INFORMATION COLLECTION ACTIVITIES (FERC-552, FERC-
549E);
CONSOLIDATED COMMENT REQUEST; EXTENSION

(December 12, 2025)

AGENCY: Federal Energy Regulatory Commission.

ACTION: Notice of information collection and request for comments.

SUMMARY: In compliance with the requirements of the Paperwork Reduction Act of 1995, 44 USC 3506(c)(2)(A), the Federal Energy Regulatory Commission (Commission or FERC) is soliciting public comment on the currently approved information collection, FERC-552, Annual Report of Natural Gas Transactions, and FERC-549E, Price Index Data Providers and Developers. There is no change to the information collection requirements.

DATES: Comments on the collections of information are due [**INSERT DATE 60 DAYS AFTER DATE OF PUBLICATION IN THE FEDERAL REGISTER**].

ADDRESSES: Please submit comments via email to DataClearance@FERC.gov. You must specify the Docket No. (IC26-5-000) and the FERC Information Collection number (FERC-552 or 549E) in your email. If you are unable to file electronically, comments may be filed by USPS mail or by hand (including courier) delivery:

SUPPLEMENTARY INFORMATION:

Title: FERC-552, Annual Report of Natural Gas Transactions; FERC-549E, Price Index Data Providers and Developers.

OMB Control No.: 1902-0242, 1902-0328

Type of Request: Three-year extension of the FERC-549E and FERC-552 information collection requirements with no changes to the current reporting requirements.

Abstract:

FERC-552: The Commission uses the information collected in the FERC Form No. 552¹ to provide greater transparency into the size of the physical natural gas market and the use of physical fixed-price and index-based natural gas transactions. This information

¹ FERC Form No. 552 is prescribed in 18 CFR 260.401.

assists the Commission and the public in assessing whether index prices are the result of a robust market of fixed-price transactions.

FERC Form No. 552 had its genesis in the Energy Policy Act of 2005², which added section 23 of the Natural Gas Act (NGA). Section 23 of the NGA, among other things, directs the Commission “to facilitate price transparency in markets for the sale or transportation of physical natural gas in interstate commerce, having due regard for the public interest, the integrity of those markets, and the protection of consumers.”³

FERC-549E: Price indices are commonly used in natural gas and electricity wholesale markets. These indices are used by market participants to price their commodities. The Commission set forth standards for price index developers to demonstrate that their internal processes were sufficient to qualify as a Commission-approved price index developer and, thus, have their price indices referenced in Commission-jurisdictional tariffs in their Initial Policy Statement.⁴ Price index developers seeking approval voluntarily provide written statements to the Commission to explain how they met these standards. The Commission uses the information collected from these price index developers to determine whether the Commission would approve the use of their indices in Commission-jurisdictional tariffs. After the Initial Policy Statement was issued,

³ 15 USC 717t-2(a)(1)(2006).

⁴ 104 FERC ¶ 61,121 (*Initial Policy Statement*), clarified, *Order on Clarification of Policy Statement on Natural Gas and Electric Price Indices*, 105 FERC ¶ 61,282 (2003) (*2003 Clarification Order*), clarified, *Order Further Clarifying Policy Statement on Natural Gas and Electric Price Indices*, 112 FERC ¶ 61,040 (2005) (*2005 Clarification Order*).

thirteen price index developers sought approval. The Commission issued a Revised Policy Statement on April 21, 2022, effective on December 31, 2022.⁵ Beginning six months after the effective date of this revision, interstate natural gas pipelines and public utilities proposing to use price indices in jurisdictional tariffs are no longer entitled to the rebuttable presumption that a price index developer's price indices produce just and reasonable rates unless the price index developer has obtained approval or re-approval from the Commission within the last seven years. The FERC-549E represents the burden for price index developers to comply with Commission requirements pertaining to information collection and data publication and to seek approval of their index with the Commission and for data providers that submit information to price index developers.

Type of Respondents: Wholesale natural gas market participants (FERC-552), price index data providers and developers (FERC-549E)

*Estimate of Annual Burden*⁶: The Commission estimates the annual public reporting burden for the information collection as:

⁵ *Actions Regarding the Commission's Policy on Price Index Formation and Transparency, and Indices Referenced in Natural Gas and Electric Tariffs (PL20-3-000) (Revised Policy Statement)*, April 21, 2022.

⁶ The Commission defines burden as the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. For further explanation of what is included in the information collection burden, reference 5 Code of Federal Regulations 1320.3.

	Number of Respondents (1)	Annual Number of Responses per Respondent (2)	Total Number of Responses (1)*(2)=(3)	Average Burden & Cost Per Response⁷ (4)	Total Annual Burden Hours & Total Annual Cost (3)*(4)=(5)	Cost per Respondent (\$) (5)÷(1)
FERC-552: Annual Report of Natural Gas Transactions⁸						
Wholesale natural gas market participants	671	1	671	20 hrs.; \$2,060	13,420 hrs.; \$1,382,260	\$2,060
FERC 549E: Price Index Data Providers⁹ and Developers						
Data providers (and their affiliates) report Next Day Transactions	76	249	18,924	4 hrs.; \$412	75,696 hrs.; \$7,796,688	\$102,588
Data Providers-perform biennial self-audit (not annual)	96	.5	48	80 hrs.; \$8,240	3,840 hrs.; \$395,520	\$4,120

⁷ The estimates for cost per response are derived using the following formula: Average Burden Hours per Response * \$103 per Hour = Average Cost per Response. The hourly cost figure comes from FERC’s average annual cost of salary plus benefits in FY25 of \$214,093. We believe this estimate is comparable to respondents salaries.

⁸ Based off of CY 2024 FERC Form 552 data.
