Comment

appreciate the opportunity to comment on the FAA’s proposed renewal of the Bird/Other Wildlife Strike Report information collection. I support continuing and improving this data collection effort, as it provides valuable information that helps protect both aviation safety and wildlife populations.

Accurate and consistent reporting of wildlife strikes is essential for identifying risk patterns, developing effective mitigation strategies, and preventing damage or injury. I encourage the FAA to ensure that reporting remains accessible and straightforward for airport personnel, pilots, and others submitting data. Streamlining the submission process and increasing awareness of its importance could further enhance participation and data quality.

Thank you for your ongoing efforts to ensure aviation safety while promoting wildlife conservation.

Sincerely, Sydney
