As part of our continuing effort to

the public's reporting burden. It also

helps the public understand our
information collection requirements and
provide the requested data in the
desired format.

We are especially interested in public
comment addressing the following:

(1) Whether or not the collection of
information is necessary for the proper
performance of the functions of the
agency, including whether or not the
information will have practical utility;

(2) The accuracy of our estimate of the
burden for this collection of
information, including the validity of
the methodology and assumptions used;

(3) Ways to enhance the quality,
utility, and clarity of the information to
be collected; and

(4) How might the agency minimize
the burden of the collection of
information on those who are to
respond, including through the use of
appropriate automated, electronic,
mechanical, or other technological
collection techniques or other forms of
information technology, *e.g.*, permitting
electronic submission of response.

Comments that you submit in

to withhold your personal identifying
information from public review, we
cannot guarantee that we will be able to
do so.

Abstract: Reclamation is responsible
for recreation development at all of its
reservoirs. Presently, more than 240
designated recreation areas exist on our
lands within the 17 Western States,
hosting approximately 40 million
visitors annually. As a result, we must
be able to respond to emerging trends;
changes in the demographic profile of
users; changing values, needs, wants,
and desires; and conflicts between user
groups.

Statistically valid and up-to-date data
derived from the user is essential to
developing and providing recreation
programs relevant to today's visitor.
Reclamation is requesting re-approval
for the collection of data from
recreational users on Reclamation lands
and waterbodies.

To meet our needs for the collection
of visitor data, we will request OMB
authorize a two-part request: survey

questions from which our regional
offices may choose and a survey form
template. This will allow for a custom
designed survey instrument to fit a
specific activity or recreation site. The
custom designed survey would be
created by extracting questions from the
approved list of survey questions that
are applicable to the recreation area and
issue being evaluated. Only questions
included in the pre-approved list of
survey questions will be used.

Revisions to this collection will be
made to adjust respondent demographic
questions to conform with Executive
Order 14168, "Defending Women From
Gender Ideology Extremism and
Restoring Biological Truth to the
Federal Government" (January 20, 2025)
and OMB's "2024 Statistical Policy
Directive No. 15: Federal Race and
Ethnicity Data Standards."

Title of Collection: Recreation Survey
Questions.

OMB Control Number: 1006-0028.

Form Number: 7-2675, Recreation
Survey Questions.

Type of Review: Revision of a
currently approved collection.

Respondents/Affected Public:
Respondents to the surveys will be
members of the public engaged in
recreational activities on Reclamation
lands and waterbodies. Visitors will
primarily consist of local residents,
people from large metropolitan areas in
the vicinity of the lake/reservoir, and
people from out of state.

*Total Estimated Number of Annual
Respondents:* 696.

*Total Estimated Number of Annual
Responses:* 696.

*Estimated Completion Time per
Response:* 15 minutes per survey (an
average of 20 questions will be used on
each survey; each question will take
approximately 45 seconds to complete
on average).

*Total Estimated Number of Annual
Burden Hours:* 140.

Respondent's Obligation: Voluntary.
Frequency of Collection: Twice
annually.

*Total Estimated Annual Nonhour
Burden cost:* None.

Reclamation estimates that there will
be a total of 140 out of 696 contacts that
choose not to respond to the survey.
These non-respondents account for 1
burden hour per year.

An agency may not conduct or
sponsor and a person is not required to
respond to a collection of information
unless it displays a currently valid OMB
control number.

The authority for this action is the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).
