Re: Proposed regulation on prevailing wages - OMB control number 1205-0508

Dear Mr. Pasternak,

Please note that if the prevailing wage floors are moved to higher percentiles, the Department of Labor will need to revise the guidelines to determine the Wage Levels.

For example, a Wage Level IV may presently be appropriate for a Job Zone 4 position that requires 5 years' previous experience, because the prevailing wage floor for Wage Level IV starts at the 67th percentile. If you move the prevailing wage floor for Wage Level IV to the 88th percentile, the years of experience to trigger 3 points on the prevailing wage analysis will be higher.

Thank you for your patience and consideration.

Sincerely,

Richard Jacobs
