

Unexploded Ordnance Hazards Disclosure – Waikoloa Maneuver Area (WMA)

The public reporting burden for this collection of information is estimated to average 0.3 hours per response, including the time for reviewing instructions, searching existing data sources, gathering, and maintaining the data needed, and completing and reviewing the collection of information. Comments regarding the accuracy of this burden estimate and any suggestions for reducing this burden can be sent to U.S. Department of Housing and Urban Development, Office of the Chief Data Officer, R, Attention: Departmental Clearance Officer, 2415 Eisenhower Avenue Alexandria, Virginia 22314, Room 10000. **Do not send completed forms to this address.** This agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the collection displays a valid OMB control number. HUD collects this information for the lessor to disclose whether unexploded ordnance hazards are present. HUD uses this information to ensure that PHAs provide notice to public housing residents and HCV holders residing within the Waikoloa Maneuver Area (WMA) about any hazards the PHA/owner is aware of, and the risks associated with living in the WMA. This information is required to obtain benefits. The Department of Housing and Urban Development (HUD) is authorized to collect the information on this form by 24 CFR 50.3(i) and 24 CFR 58.5(i)(2). This information collected will not be held confidential.

Over the past two centuries, the Department of Defense (DOD) has used land throughout the country as military training and weapons testing grounds. As training and testing needs changed, DOD obtained property or returned it to private or public uses. Today, the U.S Army Corps of Engineers (USACE) has primary responsibility for cleanup of these Formerly Used Defense Sites (FUDS). In many locations, live ammunition was used and the removal of superficial and subsurface unexploded ordnance and munitions and explosives of concern (UXO/MEC) is incomplete. Together with the USACE, local city, county, and state government agencies have the primary responsibility to ensure adequate regulatory controls exist to protect human health and safety.

Living in a FUDS area can pose serious health hazards if not managed properly. HUD's concern for resident safety at UXO/MEC sites is paramount. If a lessee believes his or her civil rights have been violated, including in relation to environmental conditions, submit a complaint online at <https://www.hud.gov/reporhousingdiscrimination>. If you are a person with disabilities and are unable to submit a complaint online, you may call (800)347-3739 or (415)436-6594(TTY). In the case of the Waikoloa Maneuver Area FUDS, until remediation is complete, and the local regulatory agency issues the appropriate site closure document(s), the head of households/lessees of all Public Housing and Housing Choice Voucher programs must complete this acknowledgement form annually.
