

Application for Analog Missions

Paperwork Reduction Act Statement

The public burden to complete this information collection is estimated at 15 minutes per response, including time for reviewing instructions, searching data sources, gathering and maintaining the data needed, and completing and reviewing the collected information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to jsc-analog-application@mail.nasa.gov. Current information regarding this collection of information - including all background materials - can be found at <https://www.reginfo.gov/public/do/PRAMain> by using the search function to enter either the title of the collection or 2700-0174.

Privacy Act Statement

Pursuant to the Privacy Act of 1974, 5 U.S.C. § 552a, the following statement is furnished to individuals applying to become ground study subjects for the Flight Analog Project.

Authority: This collection is authorized by 51 U.S.C. 20113(a) and 44 U.S.C. 3101.

Purpose: We will use the information to determine eligibility for the Flight Analog Project, including initial screening and evaluation to become a ground study subject. The information will also be used in conjunction with additional information collected via other downstream processes to assess compatibility with research protocol requirements for data collection and ground mission assignments if the applicant is selected to become a ground study subject.

Routine Uses: Any disclosures of information will be compatible with the purpose for which the Agency collected the information. Records and information in this system may be disclosed under the following Routine Uses: (1) To other individuals or organizations, including Federal, State, or local agencies, and nonprofit, educational, or private entities, who are participating in NASA programs or are otherwise furthering the understanding or application of biological, physiological, and behavioral phenomena as reflected in the data contained in this system of records; (2) to external biomedical professionals and independent entities to support internal and external reviews for purposes of research quality assurance; (3) to international partners for research activities pursuant to NASA Space Act agreements; (4) to external professionals conducting research, studies, or other activities through arrangements or agreements with NASA and for mutual benefit; and (5) in accordance with all NASA Standard Routine Uses, which can be found in the "Routine Uses" section of the System of Records Notice (SORN), Human Experimental and Research Data Record (NASA 10HERD) at

Effect of Nondisclosure: Supplying the information is voluntary on your part. However, failing to provide all or part of the information may prevent an accurate and timely decision on your application.

The following questions determine the flight analog study or studies for which you are best suited. This site does not use cookies or tracking.

Your responses will be reviewed. By submitting this form, you consent to adding your responses to the analog subject registry. After reviewing your responses, further information may be requested. You may withdraw your information from this registry at any time by sending an e-mail to the recruitment team at jsc-analog-application@mail.nasa.gov.

You must be a United States Citizen or Green Card holder to apply to participate as a ground test subject through this application. Submitted applications are processed equally regardless of the type of citizenship status selected.

Foot Note: Be advised, this is a website for recruiting test subjects.
