General Comment

Please start a campaign to make THE SOUTH aware of this program and grants available. Southern families engage in urban agriculture regularly and almost never receive grants to do so because they do not know they exist. Growing Urban Farmers in Arkansas, for example, is dedicated to this cause. But they don't even have an office! They have a temporary leasing space, making it harder for Americans to become urban farmers in the area: <https://www.growingurbanfarmers.org/>. Your outreach to the South needs to improve greatly. Please hire more Southerners to achieve this and start more social media campaigns.
