National Marine Fisheries Service - Pacific Islands Region

MAIN HAWAIIAN ISLANDS NON-COMMERCIAL BOTTOMFISH FISHING TRIP REPORT

Name of Vessel _____
Permit Number _____

Privacy Act Statement:

Authority: The collection of this information is authorized under the Magnuson-Stevens Fishery Conservation and Management Act, 16 U.S.C 1801 et seq.

Purpose: The Magnuson-Stevens Act requires that conservation and management measures must prevent over fishing while achieving, on a continuing basis, the optimum yield from each fishery. Vessel logbooks are essential tools in the management of fishery resources. Section 303(a)(5) of the Magnuson-Stevens Act specifically identifies the kinds of data to be collected for fishery management plans (also known as fishery ecosystem plans).

Routine Uses: The Department will use this information for effective fishery management. Disclosure of this information is permitted within NMFS offices under the Privacy Act of 1974 (5 U.S.C. 552a) to coordinate monitoring and management of fisheries and protected resources, as well as with the applicable State or Regional Marine Fisheries Commissions and International Organizations. Disclosure of this information is also subject to all of the published routine uses as identified in [COMMERCE/NOAA-6: Fishermen's Statistical Data](#).

Disclosure: Submission is mandatory for those persons falling under the requirements of 50 CFR 665.14. If the information is not provided, permit status may be affected.

Paperwork Reduction Act Information:

Public reporting burden for this collection is an estimated 20 minutes, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to NOAA Inouye Regional Center, Attn: NMFS/PIFSC/Fisheries Monitoring (Logbooks), 1845 Wasp Boulevard Building 176, Honolulu, Hawaii 96818.

This information is being collected to ensure accurate and timely records about the fishing activity of persons licensed to participate in fisheries under Federal regulations in the Pacific Islands Region. This will enable the National Marine Fisheries Service and the Western Pacific Fishery Management Council to (a) determine how those persons would be affected by changes in management; (b) ensure that they are informed about prospective changes in fishery regulations and the analysis of estimated impacts; and (c) determine whether the objectives of the fishery program are being achieved by monitoring the fishery and evaluating the impacts on stocks and the fishery participants and related businesses. Responses to the collection are required to obtain the benefit of a license for the fishery involved (ref. 50 CFR 665.13 and 665.14). Data provided concerning the activities and business of the respondents are handled as confidential under the Magnuson-Stevens Fishery Conservation and Management Act (Sec. 402(b)). Notwithstanding any other provision of the law, no person is required to respond to, nor shall any person be subject to a penalty for failure to comply with a collection of information subject to the requirements of the Paperwork Reduction Act, unless that collection of information displays a currently valid OMB Control Number.

Instructions for MHI Non-Commercial Bottomfish Trip Report

OMB Control No. 0648-0214

Expiration date: xx/xx/xxxx

Please print all entries except for the signature at the bottom. Submit one (or more) logsheet(s) for each bottomfishing trip you make, or for any trip in which you catch a bottomfish. All fishing activities for all methods done on the bottomfishing trip must be recorded. Do not report more than one trip per logsheet.

1. Write in the full name (first, middle initial and last) of the Vessel Operator (captain) or Owner who is preparing and submitting the report.
2. Write the Federal MHI Non-commercial Bottomfish (NCBF) Permit number of the person submitting the report.
3. Write in the Vessel Name, and either the State of Hawaii vessel registration (HA) number or the U.S. Coast Guard Documentation number. One character per box.
4. Write the port of landing (where you landed the vessel).
5. Write the dates of the start of your bottomfishing trip (for example, 10/21/2008) and end of the trip.
6. Write the average number of hooks you use on your lines when bottomfishing.
7. Write the wind, wave, and current information for only the first time you drop the lines to bottomfish on the trip. Record directions as: E, NE, N, NW, W, SW, S, or SE.
8. Catch and Effort Table – the section with the grids is where you write in your fishing activity.
 - Day – write in the day of the month (1 to 31) for the fishing effort that day.
 - Area Fished – using the Area Code charts provided with the logbook, enter the code for the area you are fishing.
 - Position - Enter the latitude and longitude to the nearest degree (°) and minute (′) of the first drop that you make in any area. If you move to a new area start a new line.
 - Depth Fished - Write the depth (in fathoms) that you fished your lines.
 - Fishing Method - Write in the Fishing Method name or code for your fishing method using the code list provided.
 - Num. Hours - Write the number of hours fished by that method in that area on that day.
 - Num. Lines - Write the average number of lines used for that method on that day.
 - Anch. Y/N - Write “Y” or “N” to indicate if you anchored while you fished. Blanks indicate “N”.
 - Did Not Catch - If you did not catch any fish in the area you fished on that day, please put a checkmark (✓) in the Did Not Catch box.
 - Species Name - Write in the name of the fish you caught using the Species List provided, one species per line.
 - Num. Kept - Write in the number of fish of that species you caught and kept (even if you used it for bait later). Use a line for each species.
 - Lbs. Kept - Write in the estimated weight of the fish kept of each species. Use a line for each species.
 - Num. Released - If you released any of the fish you caught, identify the species and write in the number you released Alive or Dead. This number should be separate from those “caught and kept”.
 - Num. Lost - If you lost any fish of this species due to sharks or other predators, please mark the number in Num. Lost.
 - Therefore, number of (caught and kept)+(released alive)+(released dead)+(lost)=total catch.
9. When the day, area (location), fishing method, or species changes, please start a new line in the table. If you run out of lines, please use another page and mark the page number on the bottom right of the page where it says “Page ___ of ___”, so we know how many pages were used for each bottomfishing trip.
10. If you directly interact with any marine mammal, turtle, or seabird on your trip, please write in the species name and the number that were uninjured, injured, or dead as a result of the fishing operation using the protected species list provided.
11. Write in the Federal MHI Non-commercial Bottomfish Permit (NCBF) or State of Hawaii Commercial Marine License (CML) numbers of **all** persons fishing with you (Crew) on this bottomfishing trip. **Each person participating on the bottomfishing trip is required to have a NCBF permit or CML.** Check the box (✓) following the permit numbers if the number you wrote is a CML number.
12. Sign and date the logsheet at the bottom and submit within 72 hours (3 days) after the end of each trip. Your signature signifies that the information you provided is complete and true to the best of your knowledge. If the vessel operator fails to submit a logsheet, it is the vessel owner’s responsibility to submit the logsheet. It is a violation of federal law to file false information or fail to make, keep, maintain or submit a logbook (50 CFR 665.15(d)).

Mail or deliver to:
NOAA Inouye Regional Center
Attn: NMFS/PIFSC/Fisheries Monitoring (Logbooks)
1845 Wasp Boulevard, Building 176
Honolulu, Hawaii 96818

If you have questions or need more logbooks,
please call (808) 725-5604.

HAWAII'S COMMONLY CAUGHT BOTTOMFISH SPECIES

Protected "Deep 7"

ONAGA
Etelis coruscans

EHU
Etelis carbunculus

OPAKAPAKA
Pristipomoides filamentosus

KALEKALE
Pristipomoides sieboldii

LEHI
Aphareus rutilans

GINDAI
Pristipomoides zonatus

HAPUUPUJU
Epinephelus quernus

Other Hawaii Federal Bottomfish Management Unit or Ecosystem Component Species

UKU
Aprion virescens

TAAPE
Lutjanus kasmira

YELLOWTAIL KALEKALE
Pristipomoides auricilla

WHITE ULUA
Caranx ignobilis

BLACK ULUA
Caranx lugubris

KAHALA
Seriola dumerili

BUTAGUCHI
Pseudocaranx dentex

Some Other Species Caught While Bottomfishing

HOGO
Pontinus macrocephalus

YELLOWSPOT PAPIO
Carangoides orthogrammus

GREEN-EYED SHARK
Squalus mitsukurii

AWEOWEO
Cookeolus japonicus

GOLDEN KALEKALE
Erythrocles scintillans

PACIFIC ISLANDS PROTECTED SPECIES

Marine Mammals:

(70) **Bottle-nose dolphin** - Round-shaped body when compared with other similarly shaped dolphins.

(67) **Pilot whale** – Large black dolphin; rounded bulbous head (“pot head”)

Turtles:

(53) **Green** – Dark brown to olive with lighter shades and spots; head small in comparison to body size; blunt beak; only sea turtle with serrated jaw.

(64) **Hawksbill** – Elongated shell often with overlapping scales; usually dark brown with yellow streaks and spots (“tortoise-shell”); head relatively small with long neck; long and narrow hawk-like beak.

(71) **Spinner dolphin**

(52) **False killer whale** – Large black dolphin; bullet-shaped head.

(54) **Leatherback** (softshell) – Black leathery shell with distinct ridges along the back, often has white spots on flippers and underside, largest sea turtle (4-6 ft long).

Sharks and Rays:

(77) **Scalloped Hammerhead**

(24) **Oceanic White-Tip**

(76) **Rough-toothed dolphin** – “Steno”; no distinct break between forehead and beak.

(66) **Humpback whale** – Long flippers (about 1/3rd of body length).

(60) **Loggerhead** – Reddish-brown shell and flippers; head large in relation to body.

(25) **Silky**

(68) **Risso’s dolphin** – Distinct melon-shaped forehead; no beak; mature animals often scarred over much of their backs.

(51) **Monk seal** – Light brown to silver gray; 3-8 ft length; 150-600 lb.

(59) **Olive ridley** – Slate gray to olive brown; width of shell usually equal to or greater than length.

Giant Manta
