Hello Paula,

I've reviewed these updates and they do not change the original determination of non-research public health surveillance. This has been cleared for human subjects.

Thanks,

James

Hi James,

I'm working to submit the NHSN OMB package 0920-0666. ICRO has asked if we have a current (in the past year) research determination in STARS or made by HS Contact in NCEZID? Or a simple email that states nothing has changed since last submission.

My PRA contact, Rudith Vice, recommended that I reach out to you regarding this to see if you'd be willing to provide something via email?

If you have any questions please let me know. Thank you!

Sincerely,
