Thank you for submitting your comment on CDC NHSN's OMB package 0920-0666. The Centers for Medicare & Medicaid Services (CMS) is the regulatory body overseeing these reporting requirements. CDC's NHSN is the data system where data are reported to enable compliance with rules issued by CMS. We understand your concerns and will share your comments with CMS. We will also continue to work with CMS to ensure the best public health data is available for action by facilities, states, jurisdictions, and federal partners.
