National Disease Surveillance Program - II. Disease Summaries 2026-00421

Document: CDC-2026-0003-0002

Comment from Rocha, David

Submitter Information

Name: David Rocha

Address:

San Antonio, TX, 78256

General Comment

CDC needs to evaluate whether the disease reporting summaries could be represented with FHIR resources (such as Questionnaire, Observation, DiagnosticReport) and standardized terminologies such as SNOMED CT.

Such alignment with eCR and NNDSS modernization will reduce reporting and improve interoperability of outbreak detection data.
