

# Welcome to the OAHPMData.net section data tracker

**Use this workbook to track your attendance and observation data for one section.**

\*When you click into a cell, if there is a drop-down available, a down triangle button will appear. Click this

\*For cells without drop-downs, each is set to only accept the correct type of data (i.e. date as mm/dd/yyyy)

\*The three **green sheets labeled 'Summary-'** provide the calculated totals and data you will need to enter.

\*The **blue sheet labeled 'UploadTemplate'** structures the same summary data in a format that can be pasted

**Cells shaded grey are locked for editing as they contain formulas which should not be changed.**

*Note:* If you know you will have more than 100 sessions and/or more than 2500 participants, please contact the technical support team.

## **Section Info:**

Use the section info sheet to enter your Section Data. Fields present are: Grantee Number, Grantee Name, Setting.

Grantee Number, Section Name, Urbanicity and Setting fields all have drop-down selections available for entry. Grantee Name, Implementing Organization Name, Program Model and Section Name are available for entry.

## **Attendance:**

Use the attendance sheet to track your participants. You may change the Participant IDs to more easily identify your participants. **tracker** so the identifiers you assign are never collected. **If your section has adult participants** be sure to track the caregiver (caregiver or youth serving professional). You will see some of the demographic options become blacked out.

Track attendance for each participant by individual session attended using the drop-downs Session Attended for every session planned to calculate the percentage attendance for the entire program.

## **Observations:**

Track your quality and fidelity (session adherence) scores for observed sections on the 'Observations' sheet. Mark the session number that corresponds to the session observed from the final calculations for reporting. Mark the session number that corresponds to the session observed from the survey (question 7) for overall quality of the session, then the number of activities planned and the number completed.

**If you have any question or need assistance, please contact the OAHPM technical support team at [support@oahpmdata.net](mailto:support@oahpmdata.net)**
