Date: Tuesday, October 21, 2025 4:15:52 AM

dear andres garcia,

on behalf of my organization, i am writing in response to the federal register notice published on september 26, 2025 (90 fr 46463; document no. 2025-18766), regarding the proposed information collection for form 15693, application to participate in the irs federal/state e-file program (omb control no. 1545–new).

i support the irs’s continued commitment to strengthening collaboration between federal, state, and local tax authorities through the e-file program. this initiative plays a vital role in promoting data accuracy, efficiency, and secure tax administration.

to further enhance the effectiveness of this effort, i respectfully recommend that the irs:

1. ensure the form 15693 process includes clear electronic submission options and detailed user guidance.
2. provide adequate technical assistance for smaller agencies with limited technological infrastructure.
3. maintain strong and transparent data protection standards to safeguard sensitive taxpayer information.

i appreciate the irs’s proactive engagement under the paperwork reduction act and its dedication to improving intergovernmental coordination. thank you for the opportunity to comment on this important initiative.

sincerely,

teresa
