SUPPLEMENTARY INFORMATION:

Title: FERC Form No. 73, Oil Pipeline Service Life Data

OMB Control No.: 1902-0019

Type of Request: Three-year extension of the FERC Form No. 73 information collection requirements with no changes to the current reporting requirements.

Abstract: The Commission collects FERC Form No. 73 information as part of its authority under the Interstate Commerce Act, 49 U.S.C. § 60501, *et al.* FERC Form No. 73 contains necessary information for the review of oil pipeline companies' proposed depreciation rates, as regulated entities are required to provide service life data

illustrating the remaining physical life of an oil pipeline's properties. This is used to calculate the company's cost of service and its transportation rates to access customers.

The Commission implements these filing reviews under 18 C.F.R. § 357.3, and 18 C.F.R. Part 347.

Section 357.3 and Part 347 require an oil pipeline company to submit information under FERC Form No. 73 when: (1) requesting approval for new or changed depreciation rates of an oil pipeline; or (2) being directed by the Commission to file the service life data during an investigation of its book depreciation rates. FERC received no comments on the 60-day Federal Register Notice.

Type of Respondent: Oil pipeline companies.

*Estimate of Annual Burden:*¹ The Commission estimates the annual public reporting burden for the information collection as below:

	Number of Respondents (1)	Annual Number of Responses per Respondent (2)	Total Number of Responses (1)*(2)=(3)	Average Burden & Cost Per Response² (4)	Total Annual Burden & Total Annual Cost (3)*(4)=(5)	Cost per Respondent (\$) (5)÷(1)
Oil Pipelines Undergoing Investigation or Review	15	1	15	40 hrs.; \$4,080	600 hrs.; \$61,200	\$4,080

¹ The Commission defines burden as the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. For further explanation of what is included in the information collection burden, reference 5 CFR § 1320.3.

² The Commission staff estimates the average cost in salary and benefits for the average respondent based on the Commission's 2026 average cost for salary plus benefits at \$102/hour.

Comments: Comments are invited on: (1) whether the collection of information is necessary for the proper performance of the functions of the Commission, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden and cost of the collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information collection; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.
