A. Overview of Information Collection

Title of Information Collection: Housing Opportunity Through Modernization Act of 2016 (HOTMA): Public Housing Waiting List Data Collection Tool.

OMB Approval Number: 2577-0302.

Type of Request: Revision of a currently approved collection.

Form Number: None.

Description of the need for the information and proposed use:

This collection of information implements a statutory requirement made by Section 103 of HOTMA, which was signed into law on July 29, 2016 (Pub. L. 114-201, 130 Stat. 782). Section 103 of HOTMA amends section 16(a) of the United States Housing Act of 1937 (42 U.S.C. 1437n(a)) (“1937 Act”).

Section 16 of the 1937 Act now states that after a public housing family has been over-income for two consecutive years, a public housing agency (PHA) must either: (1) charge the over-income family a monthly rent that is the higher of fair market rent section 8(c) for the dwelling unit or the monthly amount of public housing subsidy provided for the dwelling unit; or (2) terminate the tenancy of the over-income family no later than 6 months after the end of the two-year period. Additionally, pursuant to the revised section 16(a), PHAs must submit an annual report on the number of over-income families residing in public housing and the number of families on the public housing waiting lists. Section 16(a) permits HUD to determine the format of these annual reports. HUD has elected to utilize income data already provided, when possible, as this will result in no additional burden to the PHA.

Each PHA with a Public Housing program is required to submit the total number of families on their public housing waiting lists annually (starting with Calendar Year 2023 data) utilizing the electronic Public Housing Waiting List Data Collection Tool. PHAs will be allowed to use income data already provided by Form HUD-50058, under OMB approval number 2577-0083, which is submitted electronically in the Inventory Management System/PIH Information Center to satisfy the requirement to report the annual number of over-income families residing in public housing. Per the requirements of section 16(a) of the 1937 Act, HUD will consolidate the data provided and publish this information annually in a publicly available report.

Abstract: The Federal regulations at 30 CFR part 874 establish abandoned mine land (AML) land and water eligibility requirements, reclamation objectives and priorities, and reclamation contractor responsibility. Specifically, 30 CFR 874.17 requires consultation between the AML agency and the appropriate Title V regulatory authority when the AML agency is considering a project that would extract coal as part of an AML project. The consultation should include information concerning a number of topics specified in 30 CFR 874.17, including the likelihood of the coal being mined under Title V and nearby or adjacent mining and AML reclamation activities.
