

# 2026 Vegetable Chemical Use Survey

United States Department of Agriculture  
National Agricultural Statistics Service

## YOUR PARTICIPATION IN THIS SURVEY IS IMPORTANT!

Your response will help illustrate the industry's pesticide practices.

Some time between October 2026 through January 2027 a USDA representative will contact you to schedule an interview by phone or in person.

The interviewer will ask you detailed questions about the types of pesticides you use on your crops and your pest management practices.

To make the interview go more quickly, please have your spray records available.

Thank you for your participation! By responding, you represent and give voice to thousands of farmers like you across the nation.

For more information, please call (888) 424-7828 or visit [nass.usda.gov/go/chemuse](https://nass.usda.gov/go/chemuse).
