

October 1, 2025

Why am I getting this letter?

You have been selected to participate in this year's Agricultural Resource Management Survey. Please join us in helping U.S. agriculture and the potato industry by working with us to complete this survey. The survey has questions about your nutrient and fertilizer use and pest management practices for potato acreage.

A representative will call you to set up an interview to assist in the completion of your questionnaire. During the interview, our representative will ask you detailed questions about the types of applications you use on your crops.

To make the interview process faster, it will be helpful to have the following types of records or information available:

- nutrient and/or fertilizers used
- pest management practices
- biocontrols and/or pesticides used
- machinery and other equipment used

If you used a commercial chemical company, please have those records accessible.

How will the survey data be used?

Your response will help ensure that accurate use rates of necessary crop protection products will be widely available for your industry. These data are frequently used in re-registration and other decisions affecting the use of these crop protection products.

The information you provide will be used for statistical purposes only. In accordance with federal law, your responses will be kept confidential and will not be published in identifiable form. For more information on this survey, visit www.nass.usda.gov/go/arms/.

Thank you for your partnership and support of U.S. agriculture. If you have any questions, please call us at 888-424-7828.

Sincerely,

Lance Honig
Chair, Agricultural Statistics Board
National Agricultural Statistics Service
U.S. Department of Agriculture
