Name: Nadal Dahir

Address: United States,

General Comment

Thank you for the opportunity to be able to comment about this notice.

I can understand why FNS needs information when states make changes to SNAP, especially when they are using computers and automation systems. These help to make sure the program is working the correct way.

However, the extra reports may take a lot of time for State workers. The FNS could make this better by using simpler forms or even making more automatic reporting systems so that States spend less time on paperwork and more time working to help people who need SNAP.

Thank you for taking this into consideration.
