

**Addendum to the Supporting Statement for
Protection and Advocacy for Beneficiaries of Social Security (PABSS)
20 CFR 435.51-435.52
OMB No. 0960-0768**

Revisions to Current Information Collection Instrument: Form SSA-4570

SSA is making the following revisions:

- **Change #1:** SSA is making changes to the previously cleared form SSA-4570. We are revising the following data elements:
 - Number of fields with no changes: 9*
 - Number of fields revised: 58**
 - Number of fields added: 40
 - Number of fields removed: 12

* Number of fields with no changes includes fields with question number changes only.

** Number of fields revised includes fields revised to become more multiple questions.

Justification #1: Attachment C details the changes between the data elements in the original version and proposed revised version of the form SSA-4570 by field and includes a justification for each change. Overall, the requested changes will better enable SSA to better monitor grantee performance, identify areas needing support or improvement, and document the impact of PABSS services on beneficiaries.

The changes to the form SSA-4570 will not substantially affect the public reporting burden. The revisions to the form SSA-4565 represent a net increase of 49 fields (107 fields on the revised SSA-4570 – 58 fields on the original SSA-4570 = 49). Of the 49 fields added, 13 fields are automatically calculated and, therefore, does not represent the collection of new information.
