It also helps the public understand ONRR's information collection requirements and provide the requested data in the desired format.

ONRR is especially interested in public comments addressing the following:

(1) Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility.

While you can ask ONRR in your comment to withhold your personal identifying information from public review, ONRR cannot guarantee that it will be able to do so.

*(a) Abstract—General Information:* The Federal Oil and Gas Royalty Management Act of 1982 (FOGRMA) directs the Secretary of the Interior (Secretary) to ''establish a comprehensive inspection, collection and fiscal and production accounting and auditing system to provide the capability to accurately determine oil and gas royalties, interest, fines, penalties, fees, deposits, and other payments owed, and to collect and account for such amounts in a timely manner.'' 30 U.S.C. 1711(a). ONRR performs these and other mineral revenue management responsibilities for the Secretary. *See* U.S. Department of the Interior Departmental Manual, 112 DM 34.1 (Dec. 9, 2020).

Through this ICR, ONRR seeks continued authority to collect information necessary to perform its delegated mineral revenue management responsibilities for Net Profit Share Leases (NPSLs). The NPSLs are OCS leases that provide for the payment to the United States of a percentage of the net profits from oil and gas production. *See* 30 CFR part 1220. The requirement to report the collected information accurately and timely is mandatory.

*(b) Information Collections:* Title 30 CFR part 1220 requires an NPSL lessee to maintain and provide the following categories of information.

*(1) NPSL Capital Accounts and Reports:* Sections 1220.010 and 1220.021 require the lessee to establish and maintain a capital account for each NPSL. These sections require the lessee to credit the capital account with all production revenues attributable to the NPSL and any other credits arising from NPSL activities. The sections also require the lessee to debit the account with all allowable direct and allocable joint costs incurred during the term of the lease, appropriate overhead allowances, and allowances for capital recovery.

Section 1220.031(a) requires the lessee to file annual reports with ONRR regarding the costs incurred until production revenues are credited to the capital account. Once production revenues are credited to the account, § 1220.031(b) requires the lessee to file monthly reports with ONRR. That section requires the monthly reports to include the volume and disposition of all oil and gas production saved, removed, or sold, the production revenue, the amount and description of all costs and credits to the NPSL capital account, the balance of the NPSL capital account, the net profit share base and net profit share payment due the United States, and the monthly profit share of the lessee. Section 1220.031(e) requires the lessee to file a final report with ONRR upon cessation of production indicating the remaining balance and costs and credits to the NPSL capital account.

*(2) NPSL Inventories:* Section 1220.032(a) and (b) require the lessee to take inventories of NPSL equipment, apparatus, and supplies at reasonable intervals not to exceed three years. Section 1220.032(b) requires the lessee to notify BOEM of its intent to take inventory so that BOEM's Director may be represented at the inventory taking. Section 1220.032(d) requires the lessee to reconcile the physical inventory with the NPSL capital account and to make a list of overages and shortages available to the BOEM Director for audit. Section 1220.031(d) requires the lessee to file an inventory report following the inventory taking.

*(3) NPSL Records and Audits:* Section 1220.030(a) requires an NPSL lessee to establish and maintain certain records related to the NPSL. Section 1220.033(e) authorizes ONRR to inspect these records during normal business hours upon request. Section 1220.033(a) authorizes ONRR to audit accounts of the NPSL lessee or its contractor related to NPSL operations. Where possible, § 1220.033(a) requires ONRR to coordinate its audit with audit efforts of other nonoperators, if any. Section 1220.033(b)(1) requires nonoperators of the NPSL lease to notify ONRR of an audit call so that it may elect to send an auditor with the nonoperator's audit team in lieu of a separate audit call.

*Title of Collection:* 30 CFR part 1220, OCS Net Profit Share Payment Reporting.

*OMB Control Number:* 1012–0009.

*Form Numbers:* None.

*Type of Review:* Extension of a currently approved collection.

*Respondents/Affected Public:* Businesses.

*Total Estimated Number of Annual Respondents:* 3.

ONRR does not currently have any active NPSLs in its system because the leases have either expired, were terminated, or relinquished. However, because the authority to issue similar leases may still exist, ONRR does not anticipate—but also cannot entirely rule out—the possibility of future monthly sales reports. Furthermore, companies may still be within the allowable timeframe to adjust prior reporting. Between January 2022 and January 2026, ONRR received three adjustment royalty reports. For these reasons, the time burden associated with this ICR has decreased as ONRR expects only a minimal number of additional adjustments for NPSLs.

ONRR excluded estimates of certain requirements performed in the normal course of business that are considered usual and customary.

*Total Estimated Number of Annual Responses:* 3.

*Total Estimated Number of Annual Burden Hours:* 9 hours.

*Estimated Completion Time per Response:* 3 hours.

*Respondent's Obligation:* Mandatory.

*Frequency of Collection:* On occasion.

*Estimated Annual Non-Hour Cost Burden:* ONRR has identified no ''non-hour'' cost burden associated with the collection of information.

An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

The authority for this action is the PRA (44 U.S.C. 3501 *et seq.*).

## INTERNATIONAL TRADE COMMISSION

**[Investigation Nos. 701–TA–761, 701–TA–763, 731–TA–1743 and 731–TA–1745 (Final)]**

### Silicon Metal From Angola, Laos, and Thailand

**Determinations**

On the basis of the record [1] developed in the subject investigations, the United States International Trade Commission (''Commission'') determines, pursuant to the Tariff Act of 1930 (''the Act''), that an industry in the United States is materially injured by reason of imports of silicon metal from Laos, provided for in subheadings 2804.69.10 and 2804.69.50 of the Harmonized Tariff Schedule of the United States, that have been found by the U.S. Department of Commerce (''Commerce'') to be sold in the United States at less than fair value (''LTFV''), and subsidized by the government of Laos.[2] The Commission also determines that a U.S. industry is threatened with material injury by reason of imports of silicon metal from Angola that are sold at LTFV.[3] The Commission further determines that imports of silicon metal from Thailand found by Commerce to be subsidized by the government of Thailand are negligible and terminates the countervailing duty investigation concerning Thailand.[4]

**Background**

The Commission instituted these investigations effective April 24, 2025, following receipt of petitions filed with the Commission and Commerce by Ferroglobe USA, Inc., Beverly, Ohio, and Mississippi Silicon LLC, Burnsville, Mississippi. The final phase of the investigations was scheduled by the Commission following notification of preliminary determinations by Commerce that imports of silicon metal from Laos and Thailand were subsidized within the meaning of section 703(b) of the Act (19 U.S.C. 1671b(b)) and imports from Angola and Laos were sold at LTFV within the meaning of 733(b) of the Act (19 U.S.C. 1673b(b)). Notice of the scheduling of the final phase of the Commission's investigations and of a public hearing to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the **Federal Register** on November 26, 2025 (90 FR 54365).[5] The Commission conducted its hearing on February 19, 2026. All persons who requested the opportunity were permitted to participate.

The Commission made these determinations pursuant to §§ 705(b) and 735(b) of the Act (19 U.S.C. 1671d(b) and 19 U.S.C. 1673d(b)). It completed and filed its determinations in these investigations on April 6, 2026. The views of the Commission are contained in USITC Publication 5720 (April 2026), entitled *Silicon Metal from Angola, Laos, and Thailand: Investigation Nos. 701–TA–761, 701–TA–763, 731–TA–1743 and 731–TA–1745 (Final).*
