

Student Tuition and Transparency System (STATS) and Earnings Accountability Data Reporting Elements

FSA will offer institutions a variety of electronic processes to submit their regulatory required student and program level information, which includes batch submission, spreadsheet uploads, or online updates. Batch submissions will use the Department's standard Student Aid Internet Gateway (SAIG). SAIG is the tool that allows Federal Student Aid trading partners to securely exchange batch data with Federal Student Aid. Spreadsheet uploads and online updates will be available for institutions through FSA's National Student Loan Data System (NSLDS) website.

Section 1: Annual Program Information

Institutions must report data for each Title IV-eligible program in the Department's National Student Loan Data System (NSLDS).

Data Element	Description
