SUPPLEMENTARY INFORMATION:

Title: Credit Related Information Sharing Between RTOs/ISOs

OMB Control No.: 1902-0325

Type of Request: Three-year extension of the FERC-1005 information collection requirements with no changes to the on-going reporting requirements.

Abstract: In 2023, FERC issued the Final Rule in Docket No. RM22-13-000 discussing the need for RTOs/ISOs to share credit related information with each other. The credit-related information sharing is intended to reduce the risk of liquidity failures amongst utilities. As described in the Final Rule, the Commission revised section 35.47 of Title 18 of the Code of Federal Regulations to permit credit-related information sharing between organized wholesale electric markets. The rule does not create an information collection that is submitted to FERC, rather it permits the ability to share information between RTOs/ISOs and directs RTOs/ISOs to update their tariff provisions to include processes

and procedures to do so. At that time RTOs/ISOs were required to update their tariff provisions to enable credit-related information sharing. This process has been completed, which is why the Commission is removing the burden related to this action. The remaining burden is associated with facilitating the information sharing between entities in accordance with each RTO’s/ISO’s processes and procedures.

Type of Respondents: RTOs/ISOs

Estimate of Annual Burden¹: The Commission estimates the annual public reporting burden for the information collection as:

	Number of Respondents (1)	Annual Number of Responses per Respondent (2)	Total Number of Responses (1)*(2)=(3)	Average Burden & Cost Per Response² (4)	Total Annual Burden Hours & Total Annual Cost (3)*(4)=(5)	Cost per Respondent (5)÷(1)
Credit Related Information Sharing (ongoing)	6	2	12	4 hrs. \$408	48 hrs. \$4,896	\$916
Information Collection Activities to be removed						

¹ The Commission defines burden as the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. For further explanation of what is included in the information collection burden, reference 5 Code of Federal Regulations 1320.3.

² The Commission staff estimates that industry is similarly situated in terms of hourly cost (for wages plus benefits). Based on the Commission’s FY (Fiscal Year) 2026 average cost (for wages plus benefits), \$102/hour is used.

Tariff Provisions Compliance Filing (one-time)	6	1	6	25 hrs. \$2,550	150 hrs. \$15,300	25 hrs. \$2,550
TOTAL			12		48 hrs. \$4,896	

Comments: Comments are invited on: (1) whether the collection of information is necessary for the proper performance of the functions of the Commission, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden and cost of the collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information collection; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.

Secretary.
