

**SUPPORTING STATEMENT  
FOR PAPERWORK REDUCTION ACT SUBMISSION 3048-0015  
FORM EIB 92-51  
Application for Special Buyer Credit Limit (SBCL) Under Multi-Buyer Export  
Credit Insurance Policies**

Additional Information related to the to the Export Import Bank's privacy policies for 3048-0015 (EIB 92-51) collection:

- 1) Is the information collected maintained as part of a system of records?

Information collected by 3048-0015 (EIB 92-51) is maintained in a system that is not a System of Records. The collected information pertains to corporations and institutions, not to private individuals. In those cases when a sole proprietorship is the customer, the information provided represents a business. The contact information is for an individual in a professional capacity, representing an institution or a corporation, not PII.

- 2) Does EXIM Bank have a Privacy Impact Assessment or System of Records Notice that is applicable to the information collected?

The most recent Privacy Impact Assessment applicable to the collected information is the EXIM Online (EOL) Privacy Impact Assessment (PIA), dated July 7, 2025. The PIA determined that EOL is not a System of records under the Privacy Act, 5 U.S.C 552a.

- 3) Has the form contained in this information collection request been reviewed by EXIM Bank's privacy office or staff?

Yes, 3048-0015 (EIB 92-51) collection has been reviewed by EXIM Bank's privacy office.

#### General Instructions

A Supporting Statement, including the text of the notice to the public required by 5 CFR 1320.5(a)(i)(iv) and its actual or estimated date of publication in the Federal Register, must accompany each request for approval of a collection of information. The Supporting Statement must be prepared in the format described below and must contain information specified in Section A below. If an item is not applicable, provide a brief explanation. OMB reserves the right to require the submission of additional information with respect to any request for approval.

#### Specific Instructions

##### **A. Justification**

1. Explain the circumstances that make the collection of information necessary. Identify any legal or administrative requirements that necessitate the collection. Attach a copy of the appropriate section of each statute and regulation mandating or authorizing the collection of information.

The Export Import Bank of the United States (EXIM) pursuant to the Export Import Bank Act of 1945, as amended (12 USC 635, et seq), facilitates the finance of export of U.S. goods and services. By neutralizing the effect of export credit insurance and guarantees offered by foreign governments and by absorbing credit risks that the private sector will not accept, EXIM enables U.S. exporters to compete fairly in foreign markets on the basis of price and product. This collection of information is necessary, pursuant to 12 USC Sec. 635 (a) (1), to determine eligibility of the export for EXIM assistance.

This application form, the “EIB 92-51, Application for Special Buyer Credit Limit (SBCL) Under Multi-Buyer Export Credit Insurance Policies”, will be used by entities involved in the export of US goods and services, to provide EXIM with the information necessary to facilitate the determination of a reasonable assurance of repayment.

2. Indicate how, by whom and for what purpose the information is to be used. Except for a new collection, indicate the actual use the agency has made of the information received from the current collection.

This form is used by an exporter (or broker acting on their behalf) to obtain approval for coverage of a specific overseas buyer. The information received provides EXIM staff with the information necessary to make a determination of the eligibility of the buyer and transaction for EXIM Bank assistance under its insurance program.

3. Describe whether, and to what extent, the collection of information involves the use of automated, electronic mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses, and the basis for the decision for adopting this means of collection. Also describe any consideration of using information technology to reduce burden.

The vast majority of these forms are received electronically, together with electronic attachments of supporting credit information. EXIM Bank processing is fully electronic and concludes with the issuance of a document sent electronically to the applicant. Technology accelerates the entire process but does not necessarily reduce the amount or substance in credit information required from the applicant on new Special Buyer Credit Limit applications. However, renewal processing of these applications is significantly abbreviated since EXIM Bank kicks off the renewal application in our computer-based program EXIM online (EOL) without need for the policyholder to submit an application or sometimes provide updated credit information depending on the amount of the transaction and the exporter’s experience. The accessibility of this policy document is improved for exporters

through technology.

4. Describe effort to identify duplication. Show specifically why any similar information already available cannot be used or modified for use for the purposes described in Item 2 above.

All applications are independent of each other; therefore, this is no duplication since each application corresponds to a unique insurance product. In circumstances where some information may already be on file at EXIM Bank the application includes language allowing the applicant to indicate so.

5. If the collection of information impacts small businesses or other small entities describe any methods used to minimize burden.

The ability to complete the form electronically and submit electronically reduces the paperwork burden on small businesses and processing time for EXIM Bank.

6. Describe the consequence to Federal program or policy activities if the collection is not conducted or is conducted less frequently, as well as any technical or legal obstacles to reducing burden.

For smaller transaction amounts (\$300,000 or less) conceivably, only one initial application is required, and all yearly future renewals may be accomplished electronically at EXIM Bank without any additional effort from the exporter provided the credit amount on the foreign customer generally stays within this limit and the exporter continues to have good experience. There are no legal burdens to less frequent collection of information directly from the exporter.

7. Explain any special circumstances that would cause an information collection to be conducted in a manner”

- \*requiring respondents to report information to the agency more often than quarterly;

- \*requiring respondents to prepare a written response to a collection of information in fewer than 30 days after receipt of it;

- \*requiring respondents to submit more than an original and two copies of any document;

- \*in connection with a statistical survey, that is not designed to produce valid or reliable results that can be generalized to the universe of study;

- \*requiring the use of statistical data classification that has not been reviewed and approved by OMB;

- \*that includes a pledge of confidentiality that is not supported by authority established in statute or regulation, that is not supported by disclosure and data security policies that are consistent with the pledge, or which unnecessarily impedes sharing of data with other agencies for compatible confidential use; or

- \*requiring respondents to submit proprietary trade secrets, or other confidential information unless the agency can demonstrate that it has instituted procedures to protect the information’s confidentiality to the extent permitted by law.

This collection is consistent with guidelines in 5 CRF 1320.6.

8. If applicable, provide a copy and identify the date and page number of publication in the Federal Register of the agency's notice soliciting comments on the information collection prior to submission to OMB. Summarize public comments received in response to that notice and describe actions taken by the agency in response to these comments.

60-day notice was published in the Federal Register, Vol. 91, No 12, 2351 on 1/20/2026. The public comment period expired on 3/23/2026.

30-day notice was published in the Federal Register, Vol. 91, No. 62, 16193 on 04/01/2026. The public comment period expires on 05/01/2026

No public comments were received

9. Explain any decision to provide any payment or gift to respondents, other than remuneration of contractors or grantees.

Not applicable. EXIM does not provide any payments or gifts to respondents.

10. Describe any assurance of confidentiality provided to respondents and the basis for the assurance in statute, regulation, or agency policy.

EXIM Bank and its officers and employees are subject to the Trade Secrets Act, 19 USC Sec 1905, which requires EXIM Bank to protect confidential business and commercial information from disclosure., as well as 12 CRF 404.1, which provides that, except as required by law, EXIM Bank will not disclose information provided in confidence without the submitter's consent.

11. Provide additional justification for any question of a sensitive nature, such as sexual behavior and attitudes, religious beliefs, and other matters that are commonly considered sensitive. This justification should include the reasons why the agency considered the questions necessary, the specific uses to be made of the information, the explanation to be given to persons from whom the information is requested, and any steps to be taken to obtain their consent.

Not applicable. EXIM does not ask any questions of a sensitive nature, such as sexual behavior and attitudes, religious beliefs, and other matters that are commonly considered sensitive.

12. Provide estimates of the hour burden of the collection of information. The statement should include

The number of respondents:           2,000

Estimated time per respondents: 30 minutes  
The frequency of response: Annually as needed  
Annual hour burden: 1,000 total hours

The estimated burden was calculated using an average of ½ hour for each submission (per policyholder/exporter per year on average). This includes completing the form, accumulating and attaching required credit information.

13. Provide an estimate for the total annual cost burden to respondents or records keepers resulting from the collection of information. (Do not include the cost of any hour burden shown in items 12 and 14).

Not applicable. There is no cost burden to respondents or records keepers resulting from the collection of information by EIB 92-51 other than the time expenditure estimated in item 12.

14. Provide estimates of annualized costs to the Federal government.

Reviewing time per response: 1 hour  
Responses per year: 2,000  
Reviewing time per year: 2,000 hours  
Average Wages per hour: \$42.50  
Average cost per year: \$85,000  
(time \* wages)  
Benefits and overhead: 20%  
Total Government Cost: \$102,000

15. Explain the reasons for any program changes or adjustments reported on the burden worksheet.

No program changes were made.

16. For collection of information whose results will be published, outline plans for tabulation and publication. Address any complex analytical techniques that will be used. Provide the time schedule for the entire project, including beginning and ending dates of the collection of information, completion of report, publication dates, and other actions.

This request is for an extension of the expiry date. The information collected is not tabulated or published.

17. If seeking approval to not display the expiration date for OMB approval of the information collection, explain the reasons that display would be inappropriate.

Not applicable. EXIM is not seeking approval to not display the expiration date for

OMB approval of the information collection.

**B. Collection of Information Employing Statistical Methods**

The agency should be prepared to justify its decision not to use statistical methods in any case where such methods might reduce burden or improve accuracy of results.

Statistical methods are not used in this information collection.
