

United States Department of Agriculture
National Agricultural Statistics Service

November 30, 2026

Dear Sir/Madam,

The U.S. Department of Agriculture's National Agricultural Statistics Service (NASS) is conducting a survey to identify potential U.S. agricultural operations. NASS will use the results of the National Agricultural Classification Survey to ensure all agriculture is included in the 2027 Census of Agriculture.

Your response to this survey is **required by law** (Title 7 USC 2204(g) Public Law 105-113) and will help provide a complete accounting of U.S. agriculture.

Please report any agricultural activity in 2026.

If you are a landlord, do not report agricultural activity for your tenant(s). If you were a landlord but still operated other land yourself or raised livestock, you should complete the questionnaire.

If you have no land, no livestock, and no agricultural activity, please complete the first page, and follow the provided instructions.

Please respond by January 10, 2027, either:

- Online – Fast and secure. Go to www.agcounts.usda.gov with your unique survey code from the mailing label on the questionnaire.

OR

- By Mail – Return your completed form in the prepaid envelope provided.

If you receive more than one form, please complete one for each separate farm operation. If you only have one operation, please complete one form, write “duplicate” on the others, and return them all in the same envelope.

Thank you for your participation. Your response is very important. **Your information will be kept confidential, as required by federal law.** To learn more, visit www.nass.usda.gov/AgCensus. If you have any questions, call toll-free (888) 424-7828.

Sincerely,

Joseph L. Parsons
Administrator, National Agricultural Statistics Service
U.S. Department of Agriculture
