

2026 Revisions to NHM&E Data Requirements

Date: 04/24/2026

Variable Name	Previous NHM&E data requirements	New NHM&E data requirements	Description of Changes
HIV TESTING PROGRAM DATA REQUIREMENTS			
SECTION A: AGENCY, PROGRAM, CLIENT INFORMATION			
(Complete this section for all clients, all settings)			
Jurisdiction	A02	A02	Existing variable - no changes
Form ID	H04a	H04a	Existing variable - no changes
Session Date	H06	H06	Existing variable - no changes
Program ID	H08	H08	Existing variable - no changes
Worker ID	X135	X135	Existing variable - no changes
Program Announcement	X137	X137	Existing variable - no changes
Specify Program Announcement/Strategy	X137-1	X137-1	Existing variable - no changes
Agency Name	A01	A01	Existing variable - no changes
Agency ID	A01a	A01a	Existing variable - no changes
CBO Agency ID	A28	A28	Existing variable - no changes
Service Delivery Site Name	S03	S03	Existing variable - no changes
Site ID	S01	S01	Existing variable - no changes
Site Type	S04		S04 is deleted and replaced with S20, with modified value options
Site Type (New)		S20	Modified from S04
Site – Zip Code	S10	S10	Existing variable - no changes
Site – County	S08	S08	Existing variable - no changes
Site – State	S09	S09	Existing variable - no changes
Local Client ID	G103	G103	Existing variable - changed from optional to required reporting
Client – Year of Birth	G112	G112	Existing variable - no changes
Client – Zip Code	G134	G134	Existing variable - no changes
Client – County	G132	G132	Existing variable - no changes
Client – State/Territory of Residence	G120	G120	Existing variable - no changes
Ethnicity	G114		G114 deleted to replace it with G100 (a new OMB approved standard)

Variable Name	Previous NHM&E data requirements	New NHM&E data requirements	Description of Changes
Race	G116		G114 deleted to replace it with G100 (a new OMB approved standard)
Client Race and Ethnicity		G100	Modified from G114 (Ethnicity) and G116 (Race)
Assigned Sex at Birth	G123		G123 deleted and replaced by G124
Client Sex		G140	Modified from G123 - changed variable name and options
Current Gender Identity	G124		G124 deleted to comply with EO
Client Sexual Orientation		G141	New variable added based on OMB best practice recommendation
Sex With a Male	G400	G400	Existing variable - no changes
Sex With a Female	G401	G401	Existing variable - no changes
Injection Drug Use	G402	G402	Existing variable - no changes
Sex with Transgender	G403		G403 deleted to comply with EO
At Risk for HIV infection	G224		G224 deleted - not used for M&E
Has the Client Had an HIV Test Previously	G204		G204 is deleted and replaced with G404, with modified value options
Previous HIV Test		G404	Modified from G204 - value options modified to incorporate X150/X150a
Entry Point to a CDC-funded Program		H24	Completely new variable added to capture variations in entry to a CDC-funded program
SECTION B: HIV TESTING AND FINAL TEST INFORMATION			
(Complete this section for all clients receiving HIV testing, all settings)			
HIV Test Election	X104a		X104a is deleted - not used for M&E
Test Type	X124		X124 is deleted - not used for M&E
HIV Test Strategy		X100	Completely new variable added to capture variations in testing strategy
HIV Test Result - Final Determination	X125		X125 is deleted and replace with X140, mith modified value options
Final HIV Test Result New		X140	Modified from X125: Value options consolidated
Previous HIV Test Result (CBO only)	G205a		G205a is deleted
New or Previous HIV-positive Diagnosis	X138	X138	Existing variable - no changes

Variable Name	Previous NHM&E data requirements	New NHM&E data requirements	Description of Changes
Seen a Medical Care Provider in the Past 6 Months for HIV Treatment	X740	X740	Existing variable - no changes
eHARS State Number	H04c	H04c	Existing variable - changed from optional to required reporting
eHARS City/County Number	H04d	H04d	Existing variable - changed from optional to required reporting
HIV Test Result Provided	X111	X111	Existing variable - no changes
Follow-up to HIV Self-Test		X123	Completely new variable added to determine if current testing is a follow-up to self-testing
SECTION C: SERVICES FOR PERSONS DIAGNOSED WITH HIV (Complete this section for all clients with HIV, all settings)			
Client Needs Linkage to Medical Care and PS		X142	Completely new variable added to determine if client needs linkage/reengagement, ART prescription, or partner services
Provided Linkage/re-engagement Services to HIV Medical Care		X779	Modified from X752a-X752g - variables combined and reformatted
Attended HIV Medical Care Appointment	X741	X741	Existing variable - no changes
Appointment Date	X741a	X741a	Existing variable - no changes
Has the client ever had a positive HIV test	X150		X150 deleted: not used for M&E
Date of First Positive HIV Test	X150a		X150a deleted: not used for M&E
Was the client provided with individualized behavioral risk-reduction counseling	X742		X742 deleted: not prioritized activity
What was the client's most severe housing status in the last 12 months	X730a		X730a deleted: moved to essential support services
If the client is female, is she pregnant?	G209		G209 deleted: not used for M&E
In prenatal care (Only if pregnant)	G210		G210 deleted: not used for M&E
Screened for Perinatal HIV service coordination needs (Only if pregnant)	X745		X745 deleted: not used for M&E
Perinatal HIV service coordination needs identified	X746		X746 deleted: not used for M&E
Referred for HIV perinatal service coordination	X747		X747 deleted: not used for M&E
Received ART Prescription		X762	Completely new variable added to capture prescription for antiretroviral treatment (ART)

Variable Name	Previous NHM&E data requirements	New NHM&E data requirements	Description of Changes
Timeframe Received ART Prescription		X762a	Completely new variable added to capture time of ART prescription
Contact Information Provided for Partner Services	X743	X743	Existing variable - no changes
Interviewed for Partner Services	X744	X744	Existing variable - no changes
Date of Partner Services Interview	X744a	X744a	Existing variable - no changes
SECTION D: INTEGRATED TESTING AND DIAGNOSIS OF CO-INFECTIONS (Complete for all clients tested for HIV during this session, all settings)			
Tests for Co-infections	X127	X127	Existing variable - no changes
Syphilis Test	X127a	X127a	Existing variable - no changes
Syphilis Test Result	X128a	X128a	Existing variable - no changes (Optional)
Positive for Syphilis - Referral/Provision of Treatment		X129a	Completely new variable (Optional)
Gonorrhea Test	X127b	X127b	Existing variable - no changes
Gonorrhea Test Result	X128b	X128b	Existing variable - no changes (Optional)
Positive for Gonorrhea - Referral/Provision of Treatment		X129b	Completely new variable (Optional)
Chlamydial Test	X127c	X127c	Existing variable - no changes
Chlamydial Test Result	X128c	X128c	Existing variable - no changes (Optional)
Positive for chlamydia - Rreferral/Provision of Treatment		X129c	Completely new variable (Optional)
Hepatitis C Test	X127d	X127d	Existing variable - no changes
Hepatitis C Test Result	X128d	X128d	Existing variable - no changes (Optional)
Positive for Hepatitis C - Referral/Provision of Treatment		X129d	Completely new variable (Optional)
Hepatitis B Test		X127e	Completely new variable
Hepatitis B Test Result		X128e	Completely new variable (Optional)
Positive for Hepatitis B - Referral/Provision of Treatment		X129e	Completely new variable (Optional)
TB Test		X127f	Completely new variable
TB Test Result		X128f	Completely new variable (Optional)
Positive for TB - Referral/Provision of Treatment		X129f	Completely new variable (Optional)
Mpox Test		X127g	Completely new variable

Variable Name	Previous NHM&E data requirements	New NHM&E data requirements	Description of Changes
Mpox Test Result		X128g	Completely new variable (Optional)
Positive for Mpox - Referral/Provision of Treatment		X129g	Completely new variable (Optional)
Other Co-infection Test		X127h	Completely new variable
Other Co-infection Test Result		X128h	Completely new variable (Optional)
Positive for Other Co-infection - Referral/Provision of Treatment		X129h	Completely new variable (Optional)
Specify Other Co-infection Tested: _____		X141	Completely new variable
SECTION E: PrEP/PEP SERVICES			
PrEP AWARENESS AND USE (Complete for all clients, all settings)			
Has the client ever heard of PrEP	H800		H800 is deleted and replaced by H803
Heard of PrEP Before Today		H803	Modified from H800 - variable label changed
Provided Education/Information on PrEP		H804	Completely new variable
Has the client used PrEP anytime in the last 12 months	H802		H802 is deleted and replaced with H805 - modified value options
New Ever Used PrEP		H805	Modified value option from H802
Is the client currently taking daily PrEP	X731		X731 is deleted and replaced by X763
Currently Taking PrEP		X763	Modified from X731 (daily is dropped given advances in PrEP)
PrEP SCREENING AND FOLLOW-UP SERVICES (Complete for HIV-negative clients, all settings)			
Can Benefit From PrEP		X764	Modified from X748 - PrEP eligibility
Was the client screened for PrEP eligibility	X748		X748 is deleted -- screening and eligibility recommendations changed
Is The Client Eligible For PrEP Referral?	X749		X749 is deleted -- screening and eligibility recommendations changed
Referred To A PrEP Provider	X750		X750 is deleted and replaced with X780 with added value options
New Referred to a PrEP Provider		X780	Modified from X750

Variable Name	Previous NHM&E data requirements	New NHM&E data requirements	Description of Changes
Was The Client Provided With Services To Assist With Linkage To A PrEP Provider	X751		X751 is deleted and replaced with clearer language
Provided Navigation or Linkage Service to PrEP		X765	Modified from X751
Linked to a PrEP Provider		X766	Completely new variable
Prescribed PrEP		X767	Completely new variable
PEP AWARENESS (Complete for all clients, all settings)			
Ever Heard of PEP		X768	Completely new variable
Provided Education/ Information on PEP		X769	Completely new variable
PEP SCREENING AND FOLLOW-UP SERVICES (Complete for HIV-negative clients, all settings)			
Can Benefit from PEP		X770	Completely new variable
Prescribed PEP		X771	Completely new variable (Optional)
SECTION F: ESSENTIAL SUPPORT SERVICES			
Was The Client Screened For, Referred To, Or Provided One Or More Of The Essential Support Services Listed Below?		X772	Completely new variable
Mental Health Services Screening and Determination of Unmet Needs		X773	Modified variable: Prior X756a, X756b, and X756c split into MHS and SUS
Mental Health Services Referral or Provision		X773a	Modified variable: Prior X756a, X756b, and X756c split
Substance Use Services Screening and Determination of Unmet Needs		X774	Modified variable: Prior X756a, X756b, and X756c split into MHS and SUS
Substance Use Services Referral or Provision		X774a	Modified variable: Prior X756a, X756b, and X756c split
Housing Service Screening and Determination of		X775	Modified variable: Prior X756a, X756b, and X756c split
Housing Services Referral or Provision		X775a	Modified variable: Prior X756a, X756b, and X756c split
Navigation Services for Linkage to HIV Medical Care - Screened for need	X752a		X752a is deleted
Navigation Services for Linkage to HIV Medical Care - Need Identified	X752b		X752b is deleted
Navigation Services for Linkage to HIV Medical Care - Provided or Referred	X752c		X752c is deleted

Variable Name	Previous NHM&E data requirements	New NHM&E data requirements	Description of Changes
Linkage Services to HIV Medical Care - Screened for need	X752e		X752e is deleted
Linkage Services to HIV Medical Care - Need Identified	X752f		X752f is deleted
Linkage Services to HIV Medical Care - Provided or Referred	X752g		X752g is deleted
Health Benefits Navigation And Enrollment - Screened For Need	X753a		X753a is deleted
Health Benefits Navigation And Enrollment - Need Identified	X753b		X753b is deleted
Health Benefits Navigation And Enrollment -	X753c		X753c is deleted
Health Benefit or Insurance Navigation Services Screening and Determination of Unmet Needs		X776	Modified from X753a and X753b
Health Benefit/Insurance Navigation Services Referral or Provision		X776a	Modified from X753c
Medication Adherence Support - Screened for Need	X754a		X754a is deleted
Medication Adherence Support - Need Identified	X754b		X754b is deleted
Medication Adherence Support - Provided or Referred	X754c		X754c is deleted
Evidence-based risk Reduction Intervention - Screened for need	X755a		X755a is deleted
Evidence-based risk Reduction Intervention - Need Identified	X755b		X755b is deleted
Provided or Referred	X755c		X755c is deleted
Harm Reduction/Syringe Services Screening and Determination of Unmet Needs		X778	Modified from X755a and X755b
Harm Reduction/Syringe Services Referral or Provision		X778a	Modified from X755c
Behavioral Health Services - Screened for Need	X756a		X756a is deleted
Behavioral Health Services - Need Determined	X756b		X756b is deleted
Behavioral Health Services - Provided or Referred	X756c		X756c is deleted
Social Services - Screened for Need	X758a		X758a is deleted

Variable Name	Previous NHM&E data requirements	New NHM&E data requirements	Description of Changes
Social Services - Need Identified	X758b		X758b is deleted
Social Services - Provided or Referred	X758c		X758c is deleted
Social Services Screening and Determination of Unmet Needs		X777	Modified from X758a and X758b
Social Services Referral or Provision		X777a	Modified from X758c
JURISDICTION-LEVEL AGGREGATE DATA REQUIREMENTS			
SECTION G: AGGREGATE DATA REQUIREMENTS			
(Complete for all clients receiving services from CDC HIV prevention funded programs, all settings)			
Number of People Served at Facilities Providing Routine HIV Testing		Y01	New jurisdiction-level aggregate variable
Number of People Eligible for Routine HIV Screening		Y02	New jurisdiction-level aggregate variable
Number of People Screened for HIV at Facilities Providing Routine Testing		Y03	New jurisdiction-level aggregate variable
Number of Index Patients Newly Diagnosed with HIV Who Were Contacted by Partner Services		Y04	New jurisdiction-level aggregate variable
Number of Index Patients Newly Diagnosed with HIV Who Were Interviewed for Partner Services		Y05	New jurisdiction-level aggregate variable
Number of Index Patients Previously Diagnosed with HIV Who Were Contacted by Partner Services		Y06	New jurisdiction-level aggregate variable
Number of Index Patients Previously Diagnosed with HIV Who Were Interviewed for Partner Services		Y07	New jurisdiction-level aggregate variable
Number of Notifiable Named Partners		Y08	New jurisdiction-level aggregate variable
Number of Notified Partners		Y09	New jurisdiction-level aggregate variable
Number of Partners Tested for HIV		Y10	New jurisdiction-level aggregate variable
Number of Partners Newly Diagnosed with HIV		Y11	New jurisdiction-level aggregate variable

Variable Name	Previous NHM&E data requirements	New NHM&E data requirements	Description of Changes
Number of Partners Previously Diagnosed with HIV		Y12	New jurisdiction-level aggregate variable
Number of Partners Newly Diagnosed with HIV Who Were Linked to Care		Y13	New jurisdiction-level aggregate variable
Number of Partners Previously Diagnosed with HIV Who Were Not in Care		Y14	New jurisdiction-level aggregate variable
Number of Partners Previously Diagnosed with HIV and Not in Care Who Were Linked to Care		Y15	New jurisdiction-level aggregate variable
Number of HIV-negative Partners		Y16	New jurisdiction-level aggregate variable
Number of HIV-negative Partners by PrEP Use Status (on PrEP/ Not on PrEP)		Y17	New jurisdiction-level aggregate variable
Number of HIV-negative Partners Not on PrEP Who Were Referred to a PrEP Provider		Y18	New jurisdiction-level aggregate variable
Number of Self-test kits – Rapid		Y19	New jurisdiction-level aggregate variable
Number of Self-test kits – Mail-in		Y20	New jurisdiction-level aggregate variable
Number of People Who Received kits		Y21	New jurisdiction-level aggregate variable
Number of People Who Were Newly Diagnosed with HIV Using A Self-test Kit		Y22	New jurisdiction-level aggregate variable
Number of People Who Were Previously Diagnosed with HIV Using A Self-test Kit		Y23	New jurisdiction-level aggregate variable
Number of People Who Were Newly Diagnosed with HIV Using A Self-test Kit and Linked to Care		Y24	New jurisdiction-level aggregate variable
Number of People Who Were Previously Diagnosed with HIV Using a Self-test Kit and Not in Care		Y25	New jurisdiction-level aggregate variable
Number of People Who Were Previously Diagnosed with HIV Using a Self-test Kit, Not in Care, and Linked to Care		Y26	New jurisdiction-level aggregate variable
Number of Condoms Distributed		Y27	New jurisdiction-level aggregate variable
Number Of Syringe Services Programs Sites - Fixed		Y28	New jurisdiction-level aggregate variable

Variable Name	Previous NHM&E data requirements	New NHM&E data requirements	Description of Changes
Number Of Syringe Services Programs Sites - Mobile		Y29	New jurisdiction-level aggregate variable
Program Success Story (Descriptions)		Y30	New jurisdiction-level qualitative description of program success stories
Focused Local Evaluation (Descriptions)		Y31	New jurisdiction-level qualitative description of focused local evaluation activities and findings

HIV PARTNER SERVICES PROGRAM DATA REQUIREMENTS

Partner Services variables, including demographic characteristics and partner services activities (e.g., locating, interviewing index patients; notifying, testing, and linking partners to care and prevention services)	75 Additional variables deleted		Person level data reporting for partner services is no longer required. Partner services data reporting is converted to jurisdiction-level aggregate data (see above).
