Hi Pam,

Do we need an updated Authority to Operate?

Good morning Natasha. I just noticed that Pamela didn't respond to the question about whether a new EvaluationWeb Authority to Operate will need to be signed (it expired in September) and included in the 30-day revision package?

Hi Pamela,

I hope this message finds you well. Will you review the attachments and advise if an updated PIA and ATO are needed for National HIV Prevention Program Monitoring and Evaluation (NHM&E)? I am available to meet at your convenience if necessary. Thank you.

Subject: follow up on NHM&E OMB package

Natasha,

Good afternoon and thank you for chatting with me about the NHM&E OMB revision package. Attached is the PIA form that was submitted with the revision 60-day package. You stated that you will follow up with the Privacy Office to determine if a new PIA will need to be submitted with the 30-day revision package or if we can use the PIA that was submitted with the extension package that was approved in January 2025. You also said that you would follow up with Pamela about whether a new EvaluationWeb Authority to Operate will need to be signed and included in the 30-day revision package. Thanks!
