Subject: NonSubstantive Change Request – National Medical Support Notice - Part A
(NMSN) (OMB #0970-0222)

This memo requests approval of nonsubstantive changes to the approved information collection, National Medical Support Notice - Part A (NMSN) (OMB #0970-0222).

Background

Approval for revisions to the NMSN Part A was received in December 2025. As part of that approval, ACF requested an implementation period and estimated burden for a one year implementation period. In reviewing the request in ROCIS, ACF has realized that burden was double counted by the way it was entered into the system.

Overview of Requested Changes

ACF would like to update the request to provide the average annual burden estimates accurately. To do so, a new burden table was added to Section A12 of SSA to summarize annual burden. A link to the previously approved NMSN materials for implementation period was also added to A12 to take the place of uploading those previously approved versions as IC lines in ROCIS.
