 BILLING CODE 9110–12–P

DEPARTMENT OF HOMELAND SECURITY

Federal Emergency Management Agency

[Docket ID: FEMA–2025–0278; OMB No. 1660–0131]

Agency Information Collection Activities: Submission for OMB Review, Comment Request; Threat and Hazard Identification and Risk Assessment (THIRA)/Stakeholder Preparedness Review (SPR) Unified Reporting Tool

AGENCY: Federal Emergency Management Agency, Department of Homeland Security.

ACTION: 30-Day notice of extension and request for comments.

SUMMARY: The Federal Emergency Management Agency (FEMA) will submit the information collection abstracted below to the Office of Management and Budget for review and clearance in accordance with the requirements of the Paperwork Reduction Act of 1995. FEMA invites the general public to take this opportunity to comment on an extension, without change, of a currently approved information collection. In accordance with the requirements of the Paperwork Reduction Act of 1995, this notice seeks comments concerning this annual requirement for the U.S. Department of Homeland Security (DHS), FEMA to identify current capability levels for all States, territories, urban areas, and Tribes receiving non-disaster

preparedness grant funds administered by DHS.

DATES: Comments must be submitted on or before September 21, 2026.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection should be made to Director, Information Management Division, 500 C Street SW, Washington, DC 20472, email address FEMA-Information-Collections-Management@fema.dhs.gov or Benjamin Berger, Branch Chief, Risk Identification and Capability Assessments Branch, National Integration Center, FEMA, 202–372–5446, and Benjamin.berger@fema.dhs.gov.

SUPPLEMENTARY INFORMATION: This package is an extension to the collection titled the Threat and Hazard Identification and Risk Assessment (THIRA)/Stakeholder Preparedness Review (SPR) Unified Reporting Tool under OMB Control Number 1660–0131. The Post-Katrina Emergency Management Reform Act of 2006 (PKEMRA) (Pub. L. 109–295), as amended by the Implementing Recommendations of the 9/11 Commission Act of 2007 (Pub. L. 110–53), established an annual preparedness reporting requirement for States and territories through the State Preparedness Report (PKEMRA Section 652(c), 6 U.S.C. 752(c)). FEMA

subsequently expanded preparedness reporting through the Stakeholder Preparedness Review (SPR), which is now completed annually by States, territories, urban areas, and Tribes receiving DHS non-disaster preparedness grant funding. Each report must include a description of current capability levels, a discussion of the extent to which target capabilities identified in the applicable state homeland security plan and other applicable plans are unmet, and an assessment of resources needed to meet the preparedness priorities established under PKEMRA Section 646(e) (6 U.S.C. 746(e)), including: (i) an estimate of the amount of expenditures required to attain the preparedness priorities; and (ii) the extent to which the use of Federal assistance during the preceding fiscal year achieved the preparedness priorities. To meet this requirement, States, territories, urban areas, and Tribes first identify capability targets through THIRA and then assess against these targets in the SPR. Through the SPR, these jurisdictions estimate their current capabilities, identify and describe gaps between current capabilities and targets, indicate their intended approach for addressing gaps in the future, and report on the impact of Federal grant dollars in building and sustaining capabilities. It is also important to note that completing the THIRA and SPR are allowable expenses under the grant awards.

This proposed information collection previously published in the **Federal Register** on February 11, 2026, at 91 FR 6240 with a 60-day public comment period. FEMA received 14 comments. Respondents stated that the THIRA/SPR process imposes a significant burden while providing limited practical value,

with concerns that the methodology is inconsistently applied and difficult to compare across jurisdictions. Additional issues included challenges with data aggregation, unclear use of the data, and usability limitations of the Unified Reporting Tool. FEMA acknowledges these concerns and reiterates its commitment to the Paperwork Reduction Act, including minimizing burden and improving data utility. FEMA will consider the comments in its ongoing evaluation of THIRA/SPR, including opportunities to improve guidance, increase consistency, enhance reporting tools, and strengthen the usefulness of the data, while continuing stakeholder engagement. The purpose of this notice is to notify the public that FEMA will submit the information collection abstracted below to the Office of Management and Budget for review and clearance.

Collection of Information

Title: Threat and Hazard Identification and Risk Assessment (THIRA)/Stakeholder Preparedness Review (SPR) Unified Reporting Tool.

Type of Information Collection: Extension, without change, of a currently approved information collection.

OMB Number: 1660–0131.

FEMA Forms: FEMA Form FF–008–FY–21–106 (formerly FEMA Forms 008–0–19 and 008–0–20), Threat and Hazard Identification and Risk Assessment (THIRA)/Stakeholder Preparedness Review (SPR) Unified Reporting Tool ; FEMA Form FF–008–FY–21–107 (formerly FEMA Form 0080–0–23), THIRA/SPR After Action Conference Calls.

Abstract: The information collected enables States, territories, urban areas, and Tribes, along with the Federal Government, to understand the risks these jurisdictions face from threats and hazards, to estimate the capabilities and resources they need to manage those risks, to assess their current capability levels against their targeted capability levels, and to identify gaps between their current capabilities and the capabilities they need. FEMA and state, territory, urban area, and tribal jurisdictions use THIRA and SPR information to inform and prioritize their preparedness programs and activities.

Affected Public: State, Local or Tribal Government.

Estimated Number of Respondents: 256.

Estimated Number of Responses: 256.

Estimated Total Annual Burden

Hours: 88,779.

Estimated Total Annual Respondent Cost: \$5,863,853.

Estimated Respondents' Operation and Maintenance Costs: \$18,564,156.
Estimated Respondents' Capital and Start-Up Costs: \$0.
Estimated Total Annual Cost to the Federal Government: \$2,435,517.

Comments

Comments may be submitted as indicated in the **ADDRESSES** caption above. Comments are solicited to (a) evaluate whether the proposed data collection is necessary for the proper performance of the Agency, including whether the information shall have practical utility; (b) evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) enhance the quality, utility, and clarity of the information to be collected; and (d) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Nigel S. Allicock,

Records Management Branch Chief, Office of the Chief Administrative Officer, Mission Support, Federal Emergency Management Agency, Department of Homeland Security.

BILLING CODE 9111–27–P

DEPARTMENT OF HOMELAND SECURITY

Federal Emergency Management Agency

[Docket ID FEMA–2026–0002]

Final Flood Hazard Determinations

AGENCY: Federal Emergency Management Agency, Department of Homeland Security.

ACTION: Notice.

SUMMARY: Flood hazard determinations, which may include additions or modifications of Base Flood Elevations (BFEs), base flood depths, Special Flood Hazard Area (SFHA) boundaries or zone designations, or regulatory floodways on the Flood Insurance Rate Maps (FIRMs) and where applicable, in the supporting Flood Insurance Study (FIS) reports have been made final for the communities listed in the table below. The FIRM and FIS report are the basis of the floodplain management measures that a community is required either to adopt or to show evidence of having an effect in order to qualify or remain qualified for participation in the Federal

Emergency Management Agency's (FEMA's) National Flood Insurance Program (NFIP).

DATES: The date of December 23, 2026 has been established for the FIRM and, where applicable, the supporting FIS report showing the new or modified flood hazard information for each community.

ADDRESSES: The FIRM, and if applicable, the FIS report containing the final flood hazard information for each community is available for inspection at the respective Community Map Repository address listed in the tables below and will be available online through the FEMA Map Service Center at <https://msc.fema.gov> by the date indicated above.

FOR FURTHER INFORMATION CONTACT:

David N. Bascom, Acting Director, Engineering and Modeling Division, Federal Insurance Directorate, Resilience, FEMA, 400 C Street SW, Washington, DC 20472, or (email) david.bascom@fema.dhs.gov; or visit the FEMA Mapping and Insurance eXchange (FMIX) online at https://www.floodmaps.fema.gov/fhm/fmx_main.html.

SUPPLEMENTARY INFORMATION: The Federal Emergency Management Agency (FEMA) makes the final determinations listed below for the new or modified flood hazard information for each community listed. Notification of these changes has been published in newspapers of local circulation and 90 days have elapsed since that publication. The Assistant Administrator, Federal Insurance Directorate, Resilience has resolved any appeals resulting from this notification.

This final notice is issued in accordance with section 110 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and 44 CFR part 67. FEMA has developed criteria for floodplain management in floodprone areas in accordance with 44 CFR part 60.

Interested lessees and owners of real property are encouraged to review the new or revised FIRM and FIS report available at the address cited below for each community or online through the FEMA Map Service Center at <https://msc.fema.gov>.

The flood hazard determinations are made final in the watersheds and/or communities listed in the table below.

(Catalog of Federal Domestic Assistance No. 97.022, "Flood Insurance.")

Elizabeth Asche,

Assistant Administrator, Federal Insurance Directorate, Resilience Federal Emergency Management Agency, Department of Homeland Security.
