## **§572. National Emergency Communications Plan**

### **(a) In general**

The Secretary, acting through the Assistant Director for Emergency Communications, and in cooperation with the Department of National Communications System (as appropriate), shall, in cooperation with State, local, and tribal governments, Federal departments and agencies, emergency response providers, and the private sector, develop not later than 180 days after the completion of the baseline assessment under section 573 of this title, and periodically update, a National Emergency Communications Plan to provide recommendations regarding how the United States should-

- (1) support and promote the ability of emergency response providers and relevant government officials to continue to communicate in the event of natural disasters, acts of terrorism, and other man-made disasters; and
- (2) ensure, accelerate, and attain interoperable emergency communications nationwide.

### **(b) Coordination**

The Emergency Communications Preparedness Center under section 576 of this title shall coordinate the development of the Federal aspects of the National Emergency Communications Plan.

### **(c) Contents**

The National Emergency Communications Plan shall-

- (1) include recommendations developed in consultation with the Federal Communications Commission and the National Institute of Standards and Technology for a process for expediting national voluntary consensus standards for emergency communications equipment for the purchase and use by public safety agencies of interoperable emergency communications equipment and technologies;
- (2) identify the appropriate capabilities necessary for emergency response providers and relevant government officials to continue to communicate in the event of natural disasters, acts of terrorism, and other man-made disasters;
- (3) identify the appropriate interoperable emergency communications capabilities necessary for Federal, State, local, and tribal governments in the event of natural disasters, acts of terrorism, and other man-made disasters;
- (4) recommend both short-term and long-term solutions for ensuring that emergency response providers and relevant government officials can continue to communicate in the event of natural disasters, acts of terrorism, and other man-made disasters;
- (5) recommend both short-term and long-term solutions for deploying interoperable emergency communications systems for Federal, State, local, and tribal governments throughout the Nation, including through the provision of existing and emerging technologies;
- (6) identify how Federal departments and agencies that respond to natural disasters, acts of terrorism, and other man-made disasters can work effectively with State, local, and tribal governments, in all States, and with other entities;
- (7) identify obstacles to deploying interoperable emergency communications capabilities nationwide and recommend short-term and long-term measures to overcome those obstacles, including recommendations for multijurisdictional coordination among Federal, State, local, and tribal governments;
- (8) recommend goals and timeframes for the deployment of emergency, command-level communications systems based on new and existing equipment across the United States and develop a timetable for the deployment of interoperable emergency communications systems nationwide;
- (9) recommend appropriate measures that emergency response providers should employ to ensure the continued operation of relevant governmental communications infrastructure in the event of natural disasters, acts of terrorism, or other man-made disasters; and
- (10) set a date, including interim benchmarks, as appropriate, by which State, local, and tribal governments, Federal departments and agencies, and emergency response providers expect to achieve a baseline level of national interoperable communications, as that term is defined under section 194(g)(1) of this title.
