Give SAPs access to driver violation information in the FMCSA Clearinghouse. Ridiculous that we cannot see any info about the driver or violation specifics once we accept the invitation. Drivers and employers presume we can and rightly so, why can't we when all the info we need to write up their paperwork is on there. It is also idiotic that anyone can set up any type of profile they wish in Clearinghouse. I had a driver accidentally set himself up as a SAP when trying to send me his invitation to be his SAP but entered my info in as well and he created a duplicate SAP profile for me with his info included. I was not getting driver invitations because they were choosing the wrong profile he made. This is absurd and completely unacceptable!
