

INSTRUCTIONS FOR FSA-211

POWER OF ATTORNEY

The FSA-211, Power of Attorney is used to appoint an individual person or legal entity to act on behalf of another individual person or a legal entity as attorney-in-fact (also referred to as the Grantee). This document grants the Grantee the legal authority to act on behalf of the individual person or legal entity granting such authority (also referred to as the Grantor) to carry out the actions specified in this document. If so designated, this may include the power and authority for the Grantee to enter into binding agreements and create liability for the Grantor.

If the Grantor is a legal entity, such as a general partnership, trust, joint venture, or other similar entity and have delegated signature authority to individuals listed in the CCC-902E or CCC-901, then only that individual must sign the FSA-211. If the Grantor is an entity such as a general partnership, trust, joint venture, or other similar entity, and there is no individual sufficiently authorized to grant power of attorney on behalf of the entity, all members of the entity must sign the Power of Attorney form, using the Continuation Sheet (FSA-211A).

If the Grantor is a corporation and their corporate documents provide for redelegation of authority to individuals, then only that individual must sign the FSA-211. If the Grantor is a corporation and their corporate documents do not provide for redelegation of authority, all officers or members of the entity must sign the Power of Attorney form, using the Continuation Sheet (FSA-211A).

If the Grantee is an entity, such as lending institutions, farm management companies, farm management corporations, limited liability companies, or other similar entities, the entity must attach a letter signed by the entity's officer who has authority to designate signature authority for the entity with a list of individuals who are authorized to sign for the entity (Grantee). Any updated list must be submitted whenever the individuals on the list change. An entity granted authority to sign for a Grantor may not designate signature authority to an entity's employee to sign on behalf of the Grantor but only authorize signature authority to sign on behalf of the entity (Grantee).

This form is valid only for certain programs and actions offered by the United States Department of Agriculture's (USDA) Farm Production and Conservation (FPAC) mission area's agencies, which include the Farm Service Agency (FSA), the Natural Resources Conservation Service (NRCS), and the Risk Management Agency (RMA).

Every section of this form does not have to be completed. Only applicable sections to the Grantor's requirements for power of attorney should be completed. If completing the form for FSA and/or NRCS programs, sections A and B must be completed. If completing the form for FCIC under RMA, sections E and F must be completed.

The Grantor's signature must be witnessed by an authorized FPAC employee or notarized by a Notary Public. The completed original form must be submitted in hard copy to the appropriate USDA Service Center.

The original form must be submitted by the Grantor. FSA-211s that are received through telefacsimile machines or electronically will not be accepted.

This form may also be used to allow a Grantee to only obtain all records for FSA and NRCS programs on behalf of the Grantor.

The Grantor's signature must be acknowledged by a Notary Public in Item 8 to be valid for NRCS Conservation Easement Programs.

Item	Instruction
