

Estimate of the Information Collection Burden for
National School Lunch Program

Merge Burden for OMB Control Number 0584-0610 into
Burden for OMB Control Number 0584-0006

This document explains the calculation of the information collection burden for the OMB Control Number 0584-0610 for the Child Nutrition Program Integrity Final Rule and the merging of the requirements into OMB Control Number 0584-0006, 7 CFR 210 National School Lunch Program.

REPORTING REQUIREMENTS

AFFECTED PUBLIC: STATE AGENCIES (SAs)

1. The final rule amends the requirements found at Section 210.5(d)(2)(ii) (now at Section 210.5(d)(3)) that SAs submit a quarterly report to FNS (via FPRS) detailing the disbursement of performance-based reimbursement to SFAs by changing the frequency of the report to annually. FNS estimates that there are 56 SAs that will each file 1 report annually for a total of 56 responses ($56 \times 1=56$). The estimated average number of burden hours per response is 15 minutes (0.25 hours) resulting in an estimated total annual burden hours of 14 ($56 \times 0.25=14$). **This requirement is currently approved with 56 burden hours and 224 responses. FNA originally estimated that this report would be filed four times a year. The Child Nutrition Program Integrity Final Rule changed the number of times the report needed to be submitted from 4 to 1 annually. FNA estimates that this change will reduce the burden hours by 42 hours, from 56 to 14 hours and the responses by 168 responses, from 224 to 56 responses due to a program change.**
2. The final rule adds a requirement at Section 210.18(c)(2) that State agencies with a review cycle longer than 3 years must submit a plan to FNA describing the criteria that it will use to identify high-risk SFAs for targeted follow-up reviews. FNA estimates there are 56 SAs that will each file 1 report for a total of 56 responses ($56 \times 1=56$). The estimated average number of burden hours per response is 8 hours resulting in an estimated total annual burden hours of 488 ($56 \times 8 = 448$). This is a new information requirement resulting from this final rule and is expected to be a one-time burden. FNS may delete or further reduce this burden after all of the State agencies file their plans, depending on whether changes to the existing plans need to be made or any new plans need to be developed. **This merge adds 448 burden hours and 56 responses to the collection due to a program change.**
3. Sections 210.18 (c-h) require the SA to complete Administrative Reviews. FNA estimates there are 56 SAs that will each file approximately 113 reports annually for a total of 6,347 responses ($56 \times 113.339 = 6,347$). The estimated average number of burden hours per response is 47.5 hours resulting in an estimated total annual burden hours of 301,482 ($6,347 \times 47.5 = 301,482$). There is no change in burden.
4. Section 210.18(i)(3) requires SAs to provide written notification to SFAs of review findings, corrective actions, deadlines for completion, and potential fiscal action with grounds and right to appeal. FNS estimates there are 56 SAs that will each file 68 reports annually for a total of 3,808 responses ($56 \times 68 = 3,808$). The estimated average number of burden hours per response is 8 hours resulting in an estimated total annual burden hours of 30,464 ($3,808 \times 8 = 30,464$). **This requirement is currently approved with 50,624 burden hours and 6,328 responses. The Child Nutrition Program Integrity Final Rule reduced the**

frequency of the administrative review cycle. This in turn reduced the burden for this collection by 20,160 hours, from 50,624 to 30,464 hours and the responses by 2,520 responses, from 6,328 to 3,808 responses. This reduction is due to a program change.

5. Section 210.19(f) requires the SA to provide the Child and Adult Care Food Program (CACFP) SA with a list of all NSLP schools in which at least 50% of the children are eligible for free or reduced price meals. FNA estimates that 56 SAs will each file 1 report annually for an estimated number of responses of 56 ($56 \times 1 = 56$). The estimated average number of burden hours per response is 2 hours resulting in estimated total annual burden hours of 112 ($56 \times 2 = 112$). There is no change in burden.
6. Section 210.20(a)(7) requires SAs to report to FNA the results of schools' compliance with the food safety inspection requirement (i.e., number of inspections). FNA estimates there are 56 SAs that will each file 1 report annually for a total of 56 responses ($56 \times 1 = 56$). The estimated average number of burden hours per response is 1.5 hours resulting in an estimated total annual burden hours of 84 ($56 \times 1.5 = 84$). There is no change in burden.
7. This final rule adds a specific requirement to Section 210.21(h), that State agencies complete procurement training requirements annually. FNA estimates that each of the 56 SAs will complete procurement training requirements annually, for a total of 56 responses annually ($56 \times 1 = 56$). The estimated average number of burden hours per response is 1 hour resulting in estimated total burden hours of 56 ($56 \times 1 = 56$). **This is a new information collection requirement that is being merged into this collection as a result of the Child Nutrition Program Integrity Final Rule. This merge adds 56 burden hours and responses to this collection due to a program change.**
8. Section 210.26(b)(4) requires that State agencies notify SFAs of fines and specific violations or actions that constituted the fine, and of appeal rights and procedures, and submit a copy of the notice to FNA. FNA estimates that each of the 56 State agencies will notify SFAs of fines, specific violations, actions that constituted the fine, appeal rights, and procedures, and submit a copy of the notice to FNS 0.09 times, for a total of 5.04 notifications annually ($56 \times 0.09 = 5.04$). The estimated average number of burden hours per response is 3 hours, resulting in estimated total burden hours of 15.12 ($5.04 \times 3 = 15.12$). **This is a new information collection requirement being merged into this collection as a result of the Child Nutrition Program Integrity Final Rule. This merge adds 15.12 burden hours and 5.04 responses to the collection due to a program change.**
9. Section 210.30(b)(1)(iv) requires the SA to review and approve/deny each request to hire a school nutrition program director in a medium or large LEA who does not meet professional standards educational criteria (professional standards exception). FNA estimates that 56 SAs will review and respond to 17 requests annually for a total of 951 responses ($56 \times 17 = 951$). The estimated average number of burden hours per response is 30 minutes (0.5 hours) resulting in estimated total burden of 476 hours ($951 \times 0.5 = 476$). There is no change in burden.

Section 210.9(b)(21) requires SFAs to provide the SA with a list of all schools with at least 50% of enrolled children determined eligible for free or reduced price meals as of the last day of October and, upon request, the attendance boundaries for those schools. FNA estimates 19,019 SFAs will each file 1.25 report annually for a total of 23,774 responses ($19,019 \times 1.25 = 23,774$). The estimated average number of burden hours per response is 15 minutes (0.25 hours) resulting in an estimated total annual burden hours of 5,943 ($23,774 \times 0.25 = 5,943$). The Child Nutrition Program Integrity Final Rule reduces the frequency of the administrative review cycle. This change reduces the burden for this collection by 20,290 hours, from 50,720 to 30,430 hours and the responses by 2,536 responses, from 6,340 to 3,804 responses. This reduction is due to a program change.**

The Child Nutrition Program Integrity Final Rule reduces the frequency of the administrative review cycle. This in turn reduces the burden for this requirement by 630 hours, from 1,582 to 952 hours and the responses by 2,520 responses, from 6,328 to 3,808 responses. This reduction is due to a program change.**
