Note: Filing of a terminal disclaimer **does not obviate the requirement** to respond to an outstanding Office action. To respond to a non-final action, a reply under 37 CFR 1.111 is required. For each reference application listed below, the applicant,

owner of _____ percent interest in the instant application hereby disclaims, except as provided below, the terminal part of the statutory term of any patent granted on the instant application which would extend beyond the expiration date of the full statutory term of any patent granted on the reference application, as the term of any patent granted on the reference application may be shortened by any terminal disclaimer filed prior to the grant of any patent on the reference application. The applicant of the instant application waives the right to separately enforce any patent granted on the instant application and any patent granted on the reference application. The applicant of the instant application hereby agrees that any patent granted on the instant application shall be enforceable only for and during such period that any patent granted on the instant application and any patent granted on the reference application are not separately enforced. In making the above disclaimer, the applicant does not disclaim the terminal part of the statutory term of any patent granted on the instant application that would extend to the expiration date of the full statutory term of any patent granted on the reference application, "as the term of any patent granted on the reference application may be shortened by any terminal disclaimer filed prior to the grant of any patent on the reference application," in the event that any such patent granted on the reference application: expires for failure to pay a maintenance fee; is held unenforceable; is found invalid by a court of competent jurisdiction; is statutorily disclaimed in whole or terminally disclaimed under 37 CFR 1.321; has all claims canceled by a reexamination certificate; is reissued; or is in any manner terminated prior to the expiration of its full statutory term as shortened by any terminal disclaimer filed prior to its grant.
