

Call Script Intro

Hello,

My name is [NAME], and I'm calling from the Office of Refugee Resettlement (ORR) at the U.S. Department of Health and Human Services.

I am calling to learn about your experience since you arrived in the United States and how our agency has helped you. We want to understand what is going well and where we can improve.

Talking with me is completely voluntary. You do not have to answer any question you do not want to answer. This will not affect your benefits or services in any way.

We will only ask questions to family members who are 18 years old or older. Please make sure that everyone participating in the call meets this requirement.

Is this still a good time to talk for about [60] minutes?

If yes:

Thank you. Let me start by saying Welcome to United States. I also want to let you know that I am not a case manager. I cannot make changes to your case or provide services. I am here only to listen and learn from your experience. Also, I would like to state that I am not recording this conversation, at the same time I also do not consent to be recorded, can you confirm you will not record this call?

If needed: I am not able to make changes to individual cases or provide direct services. If you have urgent concerns or questions about your specific case, please contact your local resettlement agency or case manager. They are best able to help you.
