Abstract: The National Park Service (NPS) is authorized under 54 U.S.C. 100701 to collect information that supports park management and planning. The NPS Social Science Program (SSP) uses this generic approval to quickly submit survey requests to OMB, allowing the agency to process at least 25 requests each year—about five times more than through the regular review process.

This Programmatic Clearance covers all NPS social science information

collections—such as surveys, interviews, and focus groups—that provide useful information to park managers about visitor experiences, services, programs, and planning. To qualify, each request must clearly support NPS management or planning needs or produce research that directly benefits the agency. The process is limited to non-controversial topics that are unlikely to draw significant public attention.

All collections must be reviewed by NPS and approved by OMB before they are administered. At least 80% of the questions in each collection must come from the approved Pool of Known Questions (PKQ). Because the PKQ is not exhaustive, requestors may add park-specific or research-specific questions as long as they fall within approved topic areas. The Social Science Program will continue to ensure quality and submit each request to OMB for expedited review.

Title of Collection: Programmatic Clearance for NPS-Sponsored Public Surveys.

OMB Control Number: 1024–0224.

Form Number: Form 10–201.

Type of Review: Extension of an approved collection.

Respondents/Affected Public: Individuals/Households.

Total Estimated Number of Annual Burden Hours: 35,376 hours.

Respondent's Obligation: Voluntary.

Frequency of Collection: On occasion.

Total Estimated Annual Non Hour Burden Cost: None.

AGENCY: United States International Trade Commission.

ACTION: Notice.

SUMMARY: The Commission hereby gives notice that it has instituted reviews pursuant to the Tariff Act of 1930, as amended, to determine whether revocation of the antidumping and countervailing duty orders on melamine from China would be likely to lead to continuation or recurrence of material injury. DATES: Instituted June 1, 2026. To be assured of consideration, the deadline for responses is July 1, 2026. Comments on the adequacy of responses may be filed with the Commission by August 10, 2026.

General information concerning the Commission may also be obtained by accessing its internet server (<https://www.usitc.gov>). The public record for this proceeding may be viewed on the Commission's electronic docket (EDIS) at <https://edis.usitc.gov>.

SUPPLEMENTARY INFORMATION:

Background.—On December 28, 2015, the Department of Commerce (“Commerce”) issued antidumping and countervailing duty orders on imports of melamine from China (80 FR 80751). Following the five-year reviews by Commerce and the Commission, effective July 9, 2021, Commerce issued a continuation of the antidumping and countervailing duty orders on imports of melamine from China (86 FR 36252). The Commission is now conducting second reviews pursuant to section 751(c) of the Act, as amended (19 U.S.C. 1675(c)), to determine whether revocation of the orders would be likely to lead to continuation or recurrence of material injury to the domestic industry within a reasonably foreseeable time. Provisions concerning the conduct of this proceeding may be found in the Commission's Rules of Practice and Procedure at 19 CFR part 201, subparts A and B, and 19 CFR part 207, subparts A and F. The Commission will assess the adequacy of interested party responses to this notice of institution to determine whether to conduct full or expedited reviews. The Commission's

determinations in any expedited reviews will be based on the facts available, which may include information provided in response to this notice.

Definitions.—The following definitions apply to these reviews:

(1) *Subject Merchandise* is the class or kind of merchandise that is within the scope of the five-year reviews, as defined by Commerce.

(2) The *Subject Country* in these reviews is China.

(3) The *Domestic Like Product* is the domestically produced product or products which are like, or in the absence of like, most similar in characteristics and uses with, the *Subject Merchandise*. In its original determinations and expedited five-year review determinations, the Commission found a single *Domestic Like Product* consisting of melamine, coextensive with Commerce's scope.

(4) The *Domestic Industry* is the U.S. producers as a whole of the *Domestic Like Product*, or those producers whose collective output of the *Domestic Like Product* constitutes a major proportion of the total domestic production of the product. In its original determinations and expedited five-year review determinations, the Commission defined the *Domestic Industry* as all U.S. producers of the *Domestic Like Product*.

(5) An *Importer* is any person or firm engaged, either directly or through a parent company or subsidiary, in importing the *Subject Merchandise* into the United States from a foreign manufacturer or through its selling agent.

Participation in the proceeding and public service list.—Persons, including industrial users of the *Subject Merchandise* and, if the merchandise is sold at the retail level, representative consumer organizations, wishing to participate in the proceeding as parties must file an entry of appearance with the Secretary to the Commission, as provided in § 201.11(b)(4) of the Commission's rules, no later than 21 days after publication of this notice in the **Federal Register**. The Secretary will maintain a public service list containing the names and addresses of all persons, or their representatives, who are parties to the proceeding.

Former Commission employees who are seeking to appear in Commission five-year reviews are advised that they may appear in a review even if they participated personally and substantially in the corresponding underlying original investigation or an earlier review of the same underlying investigation.
