

NASA To Research, Evaluate, Assess, and Treat (TREAT) Astronauts Act – Screenshot Documentation

Johnson Space Center (JSC) Flight Medicine Clinic (FMC) Information Collection electronic forms are presented are used to collect information in the Electronic Medical Health Records software used.

1. Privacy and Paperwork Reduction Act (PRA) Statements pop up to all users when they access the system.
2. Screenshots of Patient Registration tabs

PRIVACY ACT STATEMENT

Pursuant to the Privacy Act of 1974 (5 U.S.C. § 552a), this statement is provided to individuals supplying information for inclusion in the NASA Health Information Management System, including information collected under the NASA To Research, Evaluate, Assess, and Treat (TREAT) Astronauts Act.

AUTHORITY: The collection of this information is authorized by 5 U.S.C. § 7901; 51 U.S.C. § 20113(a); 44 U.S.C. § 3101; 42 CFR Part 2; and Public Law 115-10 (TREAT Astronauts Act).

PURPOSE: The Johnson Space Center Flight Medicine Clinic uses this information to maintain accurate medical records for routine care, medical monitoring, diagnosis, and treatment—including conditions associated with human spaceflight. Information collected under the TREAT Astronauts Act supports the medical evaluation and treatment of former astronauts and former payload specialists and contributes to NASA's understanding of long-term spaceflight-related health effects.

ROUTINE USES: Records collected through the Electronic Medical Record system may be disclosed as described in the NASA Health Information Management System (NASA 10HIMS) System of Records Notice and NASA Standard Routine Uses for all NASA systems of records. The full System of Records Notice is available at:

<https://www.federalregister.gov/documents/2023/10/10/2023-22412/privacy-act-of-1974-system-of-records>

DISCLOSURE: Providing this information is voluntary. Failure to furnish the requested information may result in NASA's inability to track you for health monitoring and follow-up.

PAPERWORK REDUCTION ACT STATEMENT

The public burden to complete this information collection is estimated at 30 minutes per response, including time for reviewing instructions, searching data sources, gathering and maintaining the data needed, and completing and reviewing the collected information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to terrance.a.taddeo@nasa.gov. Current information regarding this collection of information - including all background materials - can be found at <https://www.reginfo.gov/public/do/PRAMain> by using the search function to enter either the title of the collection or 2700-0171.

Patient Registration screen views

- a. This screenshot is of the first electronic form to collect information by authorized clinic staff as former astronauts and/or former payload specialists arrive at the JSC clinic and are checked in by clinic staff. This form is labeled Patient and is part of the Electronic Medical Health Record software used by JSC FMC.

- d. The fourth and last screen shot is regarding the tab titled Registry. JSC FMC staff do not use this electronic information collection form. In the software design by the vendor, this form is for registry with outside databases, such as the national immunization registry for children. The JSC FMC operations do not connect to any of these types of registries and thus, it is an unused tab in the clinic.
