

FEDERAL COMMUNICATIONS COMMISSION

**Instructions for Filing a
Notification of the Transfer of an International Signaling Point Code
Office of International Affairs**

SPC-TC/ASG

Purpose of Form

This form is used to notify the FCC when an international signaling point code (ISPC) has been transferred from its original assignee/signaling point operator to another entity following a merger, acquisition, divestiture, or joint venture.

ISPCs are used in Signaling System No. 7 networks, as described in the International Telecommunication Union's [ITU-T Recommendation Q.708 \(03/99\)](#). Under ITU-T Recommendation Q.708, an ISPC(s) can be assigned to signaling point operators by each Member State's designated Administrator in accordance with the rules and procedures of the Member State and ITU-T Recommendation Q.708. This form collects information about both the transferor and transferee of the ISPC. The Commission must have identifying information about the transferee to update both its own ISPC records and those at the ITU as to who is responsible for the assigned code.

The Commission is the administrator of ISPCs for the United States and administers all ISPCs. Through this form, the Commission will collect information concerning the transfer of an ISPC assignment and will determine whether to grant the application.

Who Must File This Form and When

Any signaling point operator that is assigned an ISPC must file this form within thirty (30) days from the date it transfers its ISPC to another entity as a result of a merger, acquisition, divestiture, or joint venture. Signaling point operators do not have property rights in ISPCs, and therefore may not sell or trade ISPCs. ISPCs may not be transferred from one entity to another, except in the case of a merger, acquisition, divestiture, or joint venture. Every entity seeking to notify the Commission of an ISPC transfer must use this form.

Description of Form

This form consists of a main form and the ability to file an attachment to support the request. The Applicant is encouraged to upload a single document in machine readable format, including all required information. The Applicant must fill in all required fields, upload required documents, make all required certifications, and sign the form before submitting the application.

Information Current and Complete

Information filed in the application with the Commission must be kept current and complete under section [1.65](#) of the Commission's rules. The Applicant or the party to the application must notify the

Commission regarding any substantial and significant changes in the information furnished in the application while it remains pending. Under ITU-T Recommendation Q.708, the Applicant must inform the Commission of any change of information.

- **ISPC Amendment Form.** To amend a submitted application, use a separate form, SPC-AMD.

Applicable Rules and Regulations

The requirements can be found in ITU-T Recommendation Q.708, which also lists relevant definitions and the criteria for the transfer of ISPCs.

Applicants should refer to the Debt Collection Improvement Act of 1996. The Debt Collection Act requires all federal agencies ensure that no debtors to the Federal government obtain any licenses or other benefits from the FCC. To ensure this, the Commission must collect FRN information to correlate its Applicants with any outstanding Federal debt that they might have incurred in other dealings with the Federal government. For additional information, press on the FCC’s Debt Collection webpage, <https://www.fcc.gov/licensing-databases/fees/debt-collection-improvement-act-implementation>.

Transaction Information

Brief Application Description

Item 5. Provide a short description of the transaction that resulted in the transfer your ISPC. For example, “This is an application to notify the FCC that ABC Co.’s ISPC, [insert code number], is now in use by the ABC/XYZ Co., a joint venture that ABC Co. formed with XYZ Co.” This description will appear in the My Filings tab of your ICFS account page where all your applications are listed.

Item 6. Enter the file number(s) or AuthID(s) associated with original grant of the ISPC that are the subject of this notification. Depending on when that original application was granted, an AuthID might be associated with original file number. If you have an AuthID, you may enter that in the box instead of the file number. After entering the file number(s) or AuthID(s), the form will list all the ISPCs associated with the grant(s).

Item 7. Check the appropriate box to describe the transaction that resulted in transfer of the code(s). If you select “Other,” then you must provide additional details in the provided text box.

Item 8. The ISPC(s) associated with the file number or call sign that you entered in Item 8 will be displayed here. Select the ISPC(s) associated with the transfer. If multiple file numbers or call signs were involved in the transfer, they should all be listed here.

Item 9. In some instances, the transfer of ISPC(s) may happen contemporaneously with the transfer of control or assignment of the signaling point operator’s international section 214 authorization. In this item, the Applicant is asked if the transfer of ISPC(s) is associated with a transfer of control or assignment of an international section 214 authorization or other Commission action. If the answer is “Yes,” then the Applicant must enter the file numbers of the international section 214 authorization and the associated transfer of control/assignment application.

Item 10. If the transferee of the ISPC holds an international section 214 authorization, select “Yes” and enter the authorization file number(s). Otherwise, select “No” and explain the proposed use of the ISPC

in the provided text box.

Item 11. If the Applicant has uploaded an attachment providing a narrative description of the transfer of the ISPC, indicate that by checking the appropriate response, “Yes” or “No.”

Item 12. Here, the Applicant must enter the consummation date of the transaction. If the date is more than thirty (30) days before the date of the notification, then you must submit an attachment explaining why the notification was not provided to the Commission thirty (30) days or less after the consummation in accordance with the conditions of your ISPC assignment.

Application Fees

Item 13. An application fee is required for this form. If you are exempt from the application fee select “No.” Otherwise, select “Yes.”

Note that the FCC may not be able to start its review of a submitted application until the associated application fee is paid. To determine the required fee amount, refer to Subpart G of Part 1 of the Commission’s Rules ([47 CFR Part 1, Subpart G](#)) and the current [Fee Filing Guide](#). The current Fee Filing Guide can be downloaded from the FCC’s website at <https://www.fcc.gov/licensing-databases/fees/application-processing-fees>, by calling the FCC’s Form Distribution Center at (800) 418-FORM (3676), or from the FCC’s Fax Information System by dialing 1-866-418-0232.

Items 13a and 13b. If the Applicant is claiming a fee exemption it must select a reason in question 6a. An attachment demonstrating the Applicant’s eligibility for exemption from FCC application fees must be submitted. If the reason is “Other,” briefly describe your rationale in the text box provided. If a request for waiver/deferral of the FCC application fees has been filed with the FCC, provide the date-stamped copy of the request filed with the Commission’s Office of the Managing Director as an attachment in If the Applicant answered “Yes” to question 13, it must select the correct fee code here in question 13b. The fee code is DAP. Select this fee code.

With any waiver request, attach a statement specifying the rule section(s) for which a waiver is being requested and include a justification for the requested waiver, along with other material information. Note that a waiver associated with the filing requirements for a transfer of an ISPC(s) must be submitted as part of the SPC-TC form. A separate SPC-WAV application is not necessary. The Applicant may attach the waiver request statement by clicking the button in Item 14b or in the Attachments/Confidential Treatment of Attachments that follows

Attachments

Item 15. If any of the information included in the original application for the transferred code(s) has changed as a result of the transfer, the Applicant must include an attachment that describes what has changed. In this item, you must indicate which part of the original filing’s information has changed by checking the appropriate boxes in Items 15a-15e. For example, if the physical address where a code is implemented has been changed, you would select “Yes” for Item 15d, then upload an attachment with the new information

Item 16. If the application includes a waiver request, indicate here by checking “Yes” that the Applicant has uploaded a statement supporting the waiver request and identifying the rule number(s) involved, along with other material information. Check “N/A” if there is no waiver request with this application.

Attachments/Confidential Treatment of Attachments

Item 17. If the Applicant is requesting confidential treatment for any of its attachments, answer “Yes” to this question. Each page of every attachment must be identified with the number or letter, the number of the page, and the total number of pages.

In this item, the Applicant may use the upload button to upload its attachments. After uploading, the Applicant can describe the attachment. Also after uploading, the Applicant can click the confidential treatment button next the attachment name if it so desires. Clicking the confidential treatment button will trigger a request to upload both a redacted, public version of the attachment and a public supporting statement justifying the confidentiality request. Identify in the attachment the applicable rule(s) and provide other supporting materials or information. Documents designated for confidential treatment will not be publicly viewable in ICFS while the Commission considers the confidentiality request.

General Certification Statements

Item 18. The Applicant(s) must certify acknowledgement of all requirements listed here and elsewhere in this form by clicking on the single indicated checkbox. These include:

- **ISPC has been in continuous use.** The Applicant(s) certifies that the ISPC(s) has been in continuous use and will continue to be used in accordance with the conditions of its provisional assignment.
- **Provisional assignment.** The Applicant(s) acknowledges that it is aware that grant of an ISPC is a provisional assignment and that no one has a property right in an ISPC(s).
- **Reclaiming ISPC(s).** The Applicant(s) acknowledges that the Commission may reclaim an assigned ISPC(s) and reassign it.
- **Restriction on ISPC transfers.** The Applicant(s) acknowledges that an ISPC cannot be transferred or is transferable between signaling point operators except in the case of a merger, acquisition, divestiture, or joint venture.

Note: ISPCs may not be sold, licensed, or traded by the signaling point operators. In the event of bankruptcy, the new buyer, who obtains the network from the bankruptcy court, needs to apply for a new code for the network instead of using the previous code from the defunct entity.

The Applicant is also acknowledging its requirement to notify the Commission of any such action by filing a notification letter in the relevant IBFS file number(s) within thirty (30) days of the action.

- **Section 5301 of the Anti-Drug Act of 1988 certification.** All applicants must certify that neither they nor any other party to the application is subject to a denial of Federal benefits, including FCC benefits pursuant to Section 5301 of the Anti-Drug Act of 1988, 21 U.S.C. - **Application is true and correct.** All applicants must certify that all statements made in this application and in the attachment or documents incorporated by reference are material, are part of this application, and are true, complete, correct, and made in good faith.

Parties Authorized to Sign

Note that the Assignor/Transferor and Assignee/Transferee must both sign the application. After the Assignor/Transferor party signs, it should log out of ICFS. The entity identified as the Assignee/Transferee at the beginning of the application should then log into ICFS. It will have a message in its ICFS inbox indicating that an application is waiting. Check the My Filings tab for the application, click on it and review. The Assignee/Transferee cannot edit any part of the application other than its signature block, provided that its FRN is unassociated with the Assignor/Transferor's FRN in CORES. When FRNs are associated in CORES, both parties (Assignee/Transferee and Assignor/Transferor) can edit and submit the application. All applicants are encouraged to confer with each other to be sure the application information is accurate and complete. If the FRNs *are* unassociated in CORES, then the Assignee/Transferee should sign the appropriate signature blocks and log out; then the Assignor/Transferor can log in and submit the application provided it is complete (including any attachments).
