

Instructions on using this worksheet in developing a response to a Commission Notice of Institution relating to:
; Inv No(s): ()

Instructions

Data submitted by ; on behalf of interested party:

Pursuant to the Tariff Act of 1930, interested parties are requested to respond to the notice of institution by submitting the information specified in that notice.

The submission of responses to the notice of institution in Excel format allows the Commission to electronically extract data and thus, compile, assess, and analyze submitted data more efficiently and promptly.

This Excel worksheet covers all items mentioned in the Commission's notice of institution EXCEPT for items 4 and 12. Your responses to required items 4 and 12 and any additional information/documentation you deem necessary for your response will need to be drafted outside of this worksheet. A PDF of this Excel worksheet together with your responses to required items 4 and 12 and any additional information should be compiled and submitted as one EDIS filing.

Each tab corresponds to items as labeled/numbered in the section of the notice entitled "Information To Be Provided In Response To This Notice Of Institution".

*****For your response to be considered, it must be filed on EDIS.*****

Complete additional worksheet(s) if more than ten firms are part of your response.

Multiple firms also have the option to file one consolidated response to the Notice of Institution on behalf of an ad hoc coalition (as firm 1 in tab #1,2,3).

STEP 1: COMPLETE THE WORKSHEET

Please work through and ensure the data inputs do not contain any data entry errors, and that derivative calculations provided in the worksheet appear reasonable. If a "Data Flag" is tripped (and an error message displayed), please revise and correct that data prior to submission to the Commission as appropriate.

Leave blank any fields that are not applicable to your firm.

Do NOT attempt to modify the format or permissions of this worksheet.

Do NOT attempt to delete any rows or tabs from this worksheet.

Do NOT modify existing file name except to append a party name

e.g. **701-559_OSBM-NOI_worksheet_ PARTY_NAME** (where text in black is not modified by your firm prior to submission to USITC).

STEP 2: CONVERT TO PDF FORMAT AND FILE ON EDIS

Convert all tabs into a compiled PDF.

To convert Excel into PDF, either "save as" PDF or "print" to PDF. The print settings have been preselected for PDF conversion. DO NOT make any adjustments to the print settings to ensure a suitable presentation.

The compiled PDF should be exhibit 1 or attachment 1 of your firm's overall response to the Notice of Institution that is submitted into EDIS. Do not include blank PDF pages in exhibit/attachment 1 (for example firm identification pages that are not being used in your submission).

For instructions on how to file your official submission into EDIS, refer to the Commission's notice of institution.

STEP 3: UPLOAD EXCEL WORKSHEET VIA SECURE PORTAL

Please also submit this Excel worksheet via the secure portal shortly after formally filing on EDIS your response to the notice of institution.

*****By submitting the Excel worksheet to Commission staff, you are certifying that the worksheet matches your official submission on EDIS.*****

Web address:

<https://usitc.gov/noiportal>

Alternatively, the Excel worksheet may also be emailed to the assigned investigator. See Commission's notice of institution for investigator's contact email.

Submitters are strongly encouraged to encrypt nonpublic documents that are electronically transmitted to the Commission to protect your sensitive information from unauthorized disclosure. The USITC secure portal and the Electronic Document Information System (EDIS) use Federal Information Processing Standards (FIPS) 140-2 cryptographic algorithms to encrypt data in transit. Submitting your nonpublic documents by a means that does not use these encryption algorithms (such as by email) may subject your firm's nonpublic information to unauthorized disclosure during transmission. If you choose a non-encrypted method of electronic transmission, the Commission warns you that the risk of such possible unauthorized disclosure is assumed by you and not by the Commission.

STEP 4: CREATING PUBLIC VERSION

Business proprietary information should be removed from the public version of your official response.

For the public version of tabs #1,2,3; #5,6; and #7,8,13 : Remove all information deemed as business proprietary (i.e., information identified by brackets) and select "Public (non-confidential) version" from the header row's drop-down menu. Follow step 2 above for instructions on converting the public page to PDF for filing on EDIS. Additional text not visible in any blue entry field (i.e., outside allowed cell margins) must be separately included in your overall submission (i.e., outside of the information compiled in this worksheet).

For the public version of tabs #9 and #10,11 : Scroll down the page on each tab to the section following the green spanner row titled "Public (non-confidential) version" and select from the drop-down menus in each data element row to answer the question "Are data public?" According to your answer, the summary data will auto-populate (if public) or a "Redacted" message will auto-populate (if BPI). Follow step 2 above for instructions on converting the page to PDF and file only the Public portion for filing as a public document on EDIS.

My overall submission includes a list of known U.S. producers, U.S. importers, and foreign producers (either in this worksheet or separately).

Company lists (Yes/No):

[Empty blue text entry field]

My overall submission (i.e., outside of the information compiled in this worksheet) includes a statement identifying significant changes, if any, in the supply and demand conditions or business cycle for the Domestic Like Product that have occurred in the United States or in the market for the Subject Merchandise in each Subject Country since the most recent Order Date, and significant changes, if any, that are likely to occur within a reasonably foreseeable time. Supply conditions to consider include technology; production methods; development efforts; ability to increase production (including the shift of production facilities used for other products and the use, cost, or availability of major inputs into production); and factors related to the ability to shift supply among different national markets (including barriers to importation in foreign markets or changes in market demand abroad). Demand conditions to consider include end uses and applications; the existence and availability of substitute products; and the level of competition among the Domestic Like Product produced in the United States, Subject Merchandise produced in each Subject Country, and such merchandise from other countries.

Conditions of competition statement (Yes/No):
