Comment

I support this revision to include welfare standards specifically referring to the transportation of the animals covered. This is an issue that is often overlooked and should be considered a primary concern for any handlers for the benefit of the animal, as well as the safety of the handler during interactions with the animal. I would be interested to consider the species that would be covered by this policy post-revision. In addition to the warm-blooded animals that are already covered, I would consider expanding the animals covered as many other species are also regularly transported.
