I am in agreement that it is important to continue to collect information on animal welfare and the functions of the Agency to ensure that the Animal Welfare Act continues to be maintained for the purpose which it was created. As the animal industry and dynamics continue to change and progress over time, I believe this is a great opportunity to collect data and understand how animal welfare is progressing over time. This information collection will also allow for evaluation of everyone that is required to, like dealers, exhibitors, research facilities, etc., is abiding to the Animal Welfare Act.
