The Council requests that each CR Program cooperative develop and implement procedures and provide information on CR Program activities in a CR Cooperative Annual Report. The voluntary non-regulatory report is to summarize the effectiveness of each measure and estimate the number of participants in each measure. The purpose of the requested information is to increase availability of QS for transfer to active participants and crew members, decrease high QS lease rates, and improve low crew compensation. The cooperative response may be framed as answers to the following questions derived from the Council's motion concerning crab cooperative measures.

CR Cooperative Report

1. What measures is the cooperative taking to facilitate the transfer of QS to active participants, including crew members and vessel owners?
2. What is the level of participation from cooperative members regarding these measures?
3. How effective have these measures been?
4. What measures is the cooperative taking to address the issue of high lease rates, as they affect crew compensation?
5. What is the level of participation from cooperative members regarding these measures?
6. How effective have these measures been?
7. What future measures does the cooperative plan to take to address the Council concerns over active participation and lease rates as they affect crew compensation?
