

SUPPORTING STATEMENT - PART A

REQUEST FOR VERIFICATION OF BIRTH – OMB No. 0704-0006

1. Need for the Information Collection

The information collection requirement is necessary to meet title 10, USC 505, 532, 3253, and 8253 requirements that an applicant meet minimum and maximum age and citizenship requirements for enlistment into the Armed Forces (including the Coast Guard). If an applicant is unable to provide a birth certificate, the recruiter will forward a DD Form 372, "Request for Verification of Birth," to a state or local agency requesting verification of the applicant's birth information. This verification of the birth date ensures that the applicant does not fall outside the age limitations, and the place of birth supports the citizenship status claimed by the applicant.

2. Use of the Information

The DD Form 372, "Request for Verification of Birth," is the method of collecting and verifying birth information on applicants who are unable to provide a birth certificate from their city, county, or state. The DD Form 372 is sent to state and local agencies and is considered the official request for obtaining the birth information on applicants. The form can be downloaded, https://www.esd.whs.mil/Directives/forms/dd0001_0499/, and completed electronically, or it can be printed and completed manually. The form is then either emailed to the Service recruiter or hard copy delivered by the individual applying for military service. Once the recruiter receives the completed form, it is scanned and uploaded into the Service recruiting system to confirm date of birth and age as reported by the individual. This results in the verification that the applicant meets age standards and citizenship requirements for enlistment into the Armed Forces.

3. Use of Information Technology

Recruiters receive 90% of responses as email attachments. These electronic forms are then uploaded directly into recruiting Service systems as official source documentation. The remaining 10% are completed manually due to local city, county, or state offices unable to process requests electronically.

4. Non-duplication

The information obtained through this collection is unique and is not already available for use or adaptation from another cleared source.

5. Burden on Small Businesses

This information collection does not impose a significant economic impact on a substantial number of small businesses or entities.

6. Less Frequent Collection

Collection is completed on occasion for a select number of individuals that cannot provide a valid birth certificate to military Service recruiters. Without this collection recruiters would not be able to validate that applicants meet age and citizenship requirements for enlistment into the Armed Forces.

7. Paperwork Reduction Act Guidelines

This collection of information does not require collection to be conducted in a manner inconsistent with the guidelines delineated in 5 CFR 1320.5(d) (2).

8. Consultation and Public Comments

A 60-Day Federal Register Notice (FRN) for the collection published on Wednesday, May 25, 2026. The 60-Day FRN citation is 91 FRN 31433.

No comments were received during the 60-Day Comment Period.

A 30-Day Federal Register Notice for the collection published on Monday, August 31, 2026. The 30-Day FRN citation is 91 FRN 55845.

Part B: CONSULTATION

No additional consultation apart from soliciting public comments through the Federal Register was conducted for this submission.

9. Gifts or Payment

No payments or gifts are being offered to respondents as an incentive to participate in the collection.

10. Confidentiality

A Privacy Act Statement is located on DD form 372.
