

Explanation for Program Changes or Adjustments

This document includes proposed changes to an approved data collection “Public Health/Public Safety Strategies to Reduce Drug Overdose Data Collection,” which we are seeking to renew.

Public Health/Public Safety Strategies to Reduce Drug Overdose Data Collection			
Form Title	Type of Change	Itemized changes / Justification	Impact to Burden
SUPPORTING STATEMENT: PART A	Deletion	Removal of the third objective (“Objective C: identify disparities in access to, or the effectiveness of, strategies”) in the summary table (p. 5) and A.2 (pp. 7, 9, 10). This objective is no longer needed.	None
SUPPORTING STATEMENT: PART A	Revision	The Background (p. 6) and Need (p. 8) sections were updated to include new data and information. This revision is to reflect the current landscape of the overdose crisis and existing DOP programs.	None
SUPPORTING STATEMENT: PART A	Revision	The terms “justice-involved individuals” and “justice-involved populations” (pp. 5, 6-10,12) were replaced with “individuals in the public safety setting” to include those who encounter EMS and law enforcement prior to arrest.	None
SUPPORTING STATEMENT: PART A	Revision	The term “individuals who use drugs” (pp. 5,6,11) was replaced with “people at risk of overdose.” This revision is to clarify the subpopulation of focus.	None
SUPPORTING STATEMENT: PART A	Revision	Medetomidine was added to the definition of overdose (p. 6). This revision is to account for new overdoses involving this	None

		drug	
SUPPORTING STATEMENT: PART A	Revision	The term “harm reduction” (p. 5,6,11) was replaced with “community-based overdose prevention.” This revision is because harm reduction is no longer a focus.	None
SUPPORTING STATEMENT: PART A	Revision	The term “stigma” (p. 6) was replaced with “overdose education and awareness.” This revision is because stigma is no longer a focus.	None
SUPPORTING STATEMENT: PART A	Revision	An individual in A.8 (p. 14) was changed to reflect a staffing change and new consultant on the project.	None
SUPPORTING STATEMENT: PART A	Revision	The response to A.9 (p. 14) was revised to indicate that an incentive may be offered, if justified. This revision is to encourage participation	None
SUPPORTING STATEMENT: PART A	Revision	Wages in A.12 and A.14 (pp. 16,17) were revised to reflect current data from the Bureau of Labor Statistics. This revision is to ensure the total respondent cost is accurate.	None
SUPPORTING STATEMENT: PART A	Addition	Included the option to offer incentive	None
SUPPORTING STATEMENT: PART B	Revision	The terms “justice-involved individuals” and “justice-involved populations” (pp. 5,6) were replaced with “individuals in the public safety setting” to include those who encounter EMS and law enforcement prior to arrest.	None
SUPPORTING STATEMENT: PART B	Revision	The term “individuals who use drugs” (p.3) was replaced with “people at risk of overdose.” This revision is to be more	None

		exact about the subpopulation of focus.	
SUPPORTING STATEMENT: PART B	Revision	The term “harm reduction” (p. 3,6) was replaced with “community-based overdose prevention.” This revision is because harm reduction is no longer a focus.	None
