To Whom It May Concern:

«Int_Name» is authorized to work as a field interviewer on the National Survey of Family Growth (NSFG). This major study is sponsored by the National Center for Health Statistics (NCHS), part of the Centers for Disease Control and Prevention (CDC). This survey provides information on health and health care, plans and experiences related to having children, and other general health behaviors.

About 50,000 households in the United States will be scientifically selected each year to be screened for potential participation in this study.

The interviewers working on this survey have been hired and trained by RTI International (RTI), a nonprofit research organization. NCHS hired RTI (Contract # 75D301-20C-0973) to collect the data for the survey.

If you would like more proof that «Int_Name» is an interviewer working for RTI on this survey, please contact RTI at 800-262-4494 (toll-free) or surveyhelpdesk@rti.org.

If you would like to know more about NSFG, visit the survey's website: www.cdc.gov/nchs/nsfg/. You may also contact NCHS staff Drs. Joyce Abma or Gladys Martinez at 1-866-227-8347 (toll-free), Monday through Friday.

Thank you in advance for your help with this important study.

Sincerely,

Carolyn Greene, M.D.
Acting Director, National Center for Health Statistics
