

SAMHSA's Unified Performance Reporting Tool (SUPRT) – Project (P)

Substance Abuse and Mental Health Services Administration

DRAFT

March 2026

Public Burden Statement: An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control number for this project is XXXX-XXXX. Public reporting burden for this collection of information is estimated to average 10 hours 0 minutes per respondent, per quarter, including the time for reviewing instructions, searching existing data sources, gathering, and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to SAMHSA Reports Clearance Officer, 5600 Fishers Lane, Rockville, Maryland, 20857.

Grant and Report Information

[Section will be pre-populated in SPARS]

1. Organization Name:

2. Grant Number:

4. Targets or Results [Select one]

3. Reporting Period Federal Fiscal Year:

5. [Results Reporting Only] Reporting Period Federal Quarter:

- Q1 [October – December]
- Q2 [January – March]
- Q3 [April – June]
- Q4 [July – September]

[PLACEHOLDER FOR INSTRUCTIONS]

Total Served

The total served indicators summarizes the number of new individuals who received one or more services implemented by the grant during the reporting period and demographic characteristics of these individuals.

TS1. Total Number of Individuals Served	Result
For annual targets, enter the total number of individuals your grant plans to serve through one or more grant services during the federal fiscal year specified. For quarterly reporting, enter the total number of unduplicated new individuals served with one or more grant services during the quarter.	
Total of new individuals served: __.	

TS2. Total Served by Sex	Result
Enter the number of new individuals served by sex. Each individual may only be reported under one sex.	
a. Female: ____.	
b. Male: ____.	

TS3. Total Served by Age Group	Result
Enter the number of new individuals served for each of the following age groups. Each individual may only be reported under one age group.	
a. 0-9 years: ____.	
b. 10-17 years: ____.	
c. 18-20 years: ____.	
d. 21-24 years: ____.	
e. 25-44 years: ____.	
f. 45-64 years: ____.	
g. 65+ years: ____.	
h. Age not available: ____.	

TS4. Total Served by Military Status	Result
Enter the number of new individuals served by military status. Each individual may only be reported under military status group.	
a. Veteran: ____.	
b. Active Duty: ____.	
c. Reserve Status: ____.	
d. Military status not available: ____.	

AW. Awareness

Awareness (AW) indicators measure the estimated number of communication and group message impressions.

Awareness		Result
For annual targets, enter the total number of impressions your grant plans to reach with awareness messages during the federal fiscal year specified.		
For quarterly reporting, enter the total number of impressions your grant reached with awareness messages during the quarter.		
AW1. Number of mental health awareness and promotion messaging impressions: ____.		
AW2. Number of substance use prevention messaging impressions: ____.		
AW3. Number of 988 awareness messaging impressions: ____.		

O. Outreach

Outreach (O) indicators track one-on-one contact with individuals outside of the clinical setting to encourage care seeking, improve access to care, linkages to care, and retention in care.

Outreach		Result
For annual targets, enter the total number of connections your grant plans to contact through outreach during the federal fiscal year specified.		
For quarterly reporting, enter the total number of connections your grant contacted through outreach during the quarter.		
O1. Number of connections made through program outreach: ____.		
O2. Number of connections made through program outreach in geographically isolated areas: ____.		
O3. Number of connections made through program outreach in under-resourced communities: ____.		

PAE. Prevention Activities and Education

Prevention Activities (PA) indicators track prevention-related activities intended to reduce risk. For each indicator, please provide counts for the reporting period consistent with the goals of the grant.

Prevention Activities	Result
-----------------------	--------

For annual targets, enter the total number of prevention-related activities, purchases and supplies your grant is planning during the federal fiscal year specified.

For quarterly reporting, enter the total number of prevention-related activities, purchases made, and supplies distributed by your grant during the quarter.

PA1. Number of new individuals vaccinated for hepatitis A (HAV): .	
PA2. Number of new individuals vaccinated for hepatitis B (HBV): __.	
PA3. Number of opioid overdose reversal medication (OORM) kits purchased: _____.	
PA4. Number of opioid overdose reversal medication (OORM) kits distributed: _____.	
PA5. Number of prevention devices distributed: _.	
PA6. Number of medication lock boxes distributed: _.	
PA7. Number of sharps containers distributed: .	
PA8. Number of medication disposal kits distributed: .	
PA9. Number of safe sex kits including condoms distributed: _____.	
PA10. Number of wound management kits distributed: _____.	
PA11. Number of gun locks distributed: _.	
PA12. Number of drug checking technologies distributed: __.	

Prevention Education encounters (PE) indicators track components of universal prevention strategies delivered to individuals through one-on-one brief interactions or group setting activities.

Prevention Education - Encounters	Result
For annual targets, enter the total number of education encounters your grant plans to provide with prevention, education, or promotion during the federal fiscal year specified.	
For quarterly reporting, enter the total number of education encounters your grant provide with prevention education, or promotion during the quarter.	
PE1. Number of mental health promotion education encounters: .	
PE2. Number of substance use education encounters: .	
PE3. Number of substance use treatment education encounters: _.	
PE4. Number of substance use prevention education encounters: _____.	
PE5. Number of substance use recovery education encounters: __.	
PE6. Number of prevention of suicide education encounters: .	
PE7. Number of prevention of viral hepatitis, HIV, or other communicable diseases education encounters: _____.	
PE8. Number of prevention of hepatitis B (HBV) education encounters: __.	
PE9. Number of prevention of hepatitis C (HBC) education encounters: __.	
PE10. Number of prevention of HIV education encounters: __.	
PE11. Number of pre-exposure prophylaxis for HIV (PrEP) education encounters:	

_____.	
PE12. Number of post-exposure prophylaxis for HIV (PEP) education encounters: _____.	
PE13. Number of prevention of bacterial sexually transmitted infections (STIs) education encounters: ____.	

Prevention Education - Individuals (PEI) indicators track components of universal prevention strategies delivered to individuals through one-on-one brief interactions or group setting activities.

Prevention Education - Individuals	Result
For annual targets, enter the total number of new individuals your grant plans to reach with prevention, education, or promotion through outreach during the federal fiscal year specified. For quarterly reporting, enter the total number of new individuals your grant reached with prevention education, or promotion during the quarter.	
PEI1. Number of new individuals educated on mental health promotion: ____.	
PEI2. Number of new individuals educated on substance use: _____.	
PEI3. Number of new individuals educated on substance use treatment: ____.	
PEI4. Number of new individuals educated on substance use prevention: ____.	
PEI5. Number of new individuals educated on substance use recovery: _____.	
PEI6. Number of new individuals educated on prevention of suicide: _____.	
PEI7. Number of new individuals educated on prevention of viral hepatitis, HIV, or other communicable diseases: _.	
PEI8. Number of new individuals educated on prevention of hepatitis B (HBV): _____.	
PEI9. Number of new individuals educated on prevention of hepatitis C (HBC): _____.	
PEI10. Number of new individuals educated on prevention of HIV: .	
PEI11. Number of new individuals educated on pre-exposure prophylaxis for HIV (PrEP): ____.	
PEI12. Number of new individuals educated on post-exposure prophylaxis for HIV (PEP): ____.	
PEI13. Number of new individuals educated on prevention of bacterial sexually transmitted infections (STIs): ____.	

SAT. Screening, Assessment, and Testing

Screening, assessment, and testing indicators monitor efforts to identify individuals with behavioral health and related health or support needs.

Screening Encounter	Result
---------------------	--------

For annual targets, enter the total number of screening encounters your grant plans to screen during the federal fiscal year specified. Do not enter targets for the number of encounters expected to have a positive screen.

For quarterly reporting, enter the total number of screening encounters your grant screened during the quarter.

SE1. Number of mental health screening encounters: ____.	
SE2. Number of trauma experience screening encounters: _.	
SE3. Number of substance use screening encounters: ____.	
SE4. Number of positive substance use screening encounters: ____.	
SE5. Number of positive substance use screening encounters where services were declined: _.	
SE6. Number of suicide risk screening encounters: .	
SE7. Number of positive suicide risk screening encounters: .	
SE8. Number of screening encounters for risk factors associated with viral hepatitis, HIV, bacterial STIs, and tuberculosis: .	
SE9. Number of screening encounters for risk of HIV: .	
SE10. Number of screening encounters for risk of hepatitis B (HBV) : ____.	
SE11. Number of screening encounters for risk of hepatitis C (HCV): .	
SE12. Number of screening encounters for risk of bacterial sexually transmitted infections (STIs): ____.	
SE13. Number of screening encounters for risk of tuberculosis (TB): .	
SE14. Number of supportive services needs screening encounters: _.	
SE15. Number of educational/vocational needs screening encounters: ____.	
SE16. Number of employment needs screening encounters: .	
SE17. Number of family support needs screening encounters: ____.	
SE18. Number of childcare needs screening encounters: ____.	
SE19. Number of transportation needs screening encounters: ____.	
SE20. Number of housing stability screening encounters: ____.	
SE21. Number of screening encounters positive for experiencing homelessness: _____.	
SE22. Number of recovery housing needs screening encounters: ____.	
SE23. Number of peer support needs screening encounters: ____.	
SE24. Number of food insecurity screening encounters: ____.	
SE25. Number of other health conditions screening encounters: ____.	

Screening - Individual	Result
For annual targets, enter the total number of individuals your grant plans to screen during the federal fiscal year specified. Do not enter targets for the number of individuals expected to have a positive screen.	

For quarterly reporting, enter the total number of individuals your grant screened during the quarter.	
SI1. Number of new individuals screened for mental health: ____.	
SI2. Number of new individuals screened for substance use: ____.	
SI3. Number of new individuals who screened positive for substance use: _.	
SI4. Number of new individuals who screened positive for substance use but declined services: ____.	
SI5. Number of new individuals screened for suicide risk: .	
SI6. Number of new individuals who screened positive for suicide risk: ____.	
SI7. Number of new individuals screened for risk factors associated with viral hepatitis, HIV, bacterial STIs, and tuberculosis: ____.	
SI8. Number of new individuals who screened at risk for HIV: ____.	
SI9. Number of new individuals who screened at risk for hepatitis B (HBV): ____.	
SI10. Number of new individuals who screened at risk for hepatitis C (HCV): ____.	
SI11. Number of new individuals who screened at risk for bacterial sexually transmitted infections (STIs): _.	
SI12. Number of new individuals who screened at risk for tuberculosis (TB): ____.	
SI13. Number of new individuals screened for need for supportive services: ____.	
SI14. Number of new individuals screened for educational/vocational needs: ____.	
SI15. Number of new individuals screened for employment needs: _.	
SI16. Number of new individuals screened for family support needs: ____.	
SI17. Number of new individuals screened for childcare needs: ____.	
SI18. Number of new individuals screened for transportation needs: ____.	
SI19. Number of new individuals screened for housing stability: ____.	
SI20. Number of new individuals screened positive for homelessness: ____.	
SI21. Number of new individuals screened for recovery housing needs: ____.	
SI22. Number of new individuals screened for peer support needs: .	
SI23. Number of new individuals screened for food insecurity: ____.	
SI24. Number of new individuals screened for other health conditions: ____.	

Assessment and Testing	Result
------------------------	--------

For annual targets, enter the total number of individuals your grant plans to test during the federal fiscal year specified. Do not enter targets for the number of individuals expected to have a positive test result or a diagnosis.

For quarterly reporting, enter the total number of new individuals your grant assessed or tested during the quarter.

AT1. Number of new individuals assessed for a serious mental illness (SMI) or a serious emotional disturbance (SED): _____.	
AT2. Number of new individuals diagnosed with a SMI: .	
AT3. Number of new individuals diagnosed with a SED: .	
AT4. Number of new individuals assessed for a substance use disorder (SUD): _____.	
AT5. Number of new individuals diagnosed with an SUD: .	
AT6. Number of new individuals tested for HIV: .	
AT7. Number of new individuals who tested positive for HIV: .	
AT8. Number of new individuals reached with a known HIV-positive status but not currently receiving treatment: .	
AT9. Number of new individuals tested for hepatitis B (HBV): .	
AT10. Number of new individuals who tested positive for HBV: _____.	
AT11. Number of new individuals reached with a known HBV-positive status but not currently receiving treatment: .	
AT12. Number of new individuals tested for hepatitis C (HCV): _____.	
AT13. Number of new individuals who tested positive for HCV: _____.	
AT14. Number of new individuals reached with a known HCV-positive status but not currently receiving treatment: .	
AT15. Number of new individuals tested for bacterial sexually transmitted infections (STIs) : _____.	
AT16. Number of new individuals who tested positive for gonorrhea: _____.	
AT17. Number of new individuals who tested positive for chlamydia: _____.	
AT18. Number of new individuals who tested positive for syphilis: ____.	
AT19. Number of new individuals who tested for tuberculosis (TB): ____.	
AT20. Number of new individuals who tested positive for tuberculosis (TB): ____.	

R. Referral

Referral indicators track efforts to refer the individuals identified with behavioral health and related health or support needs.

Referral	Result
For annual targets, enter the total number of referrals your grant plans to provide during the federal fiscal year specified.	
For quarterly reporting, enter the total number of referrals your grant provided during the	

quarter.	
R1. Number of referrals provided to mental health services: ____.	
R2. Number of referrals provided to substance use services: ____.	
R3. Number of referrals provided to treatment after a positive screening for substance use: ____.	
R4. Number of referrals provided to treatment after an overdose reversal: ____.	
R5. Number referrals provided to crisis services: .	
R6. Number referrals provided co-occurring treatment services: ____.	

Referral - Encounter	Result
For annual targets, enter the total number of referral encounters your grant plans to provide during the federal fiscal year specified.	
For quarterly reporting, enter the total number of referral encounters your grant provided during the quarter.	
RE1. Number of mental health service referral encounters: .	
RE2. Number of traumatic stress referral encounters: ____.	
RE3. Number of suicide prevention referral encounters: ____.	
RE4. Number of substance use service referral encounters: .	
RE5. Number of substance use service referral encounters after a positive screening for substance use: ____.	
RE6. Number of substance use service referral encounters after an overdose reversal: ____.	
RE7. Number of crisis service referral encounters: ____.	
RE8. Number of co-occurring treatment service referral encounters: ____.	

Referral - Individual	Result
For annual targets, enter the total number of new individuals your grant plans to refer during the federal fiscal year specified.	
For quarterly reporting, enter the total number of new individuals your grant referred during the quarter.	
RI1. Number of new individuals referred to mental health services: ____.	
RI2. Number of new individuals referred to substance use services: ____.	
RI3. Number of new individuals referred to treatment after a positive screening for substance use: ____.	
RI4. Number of new individuals referred to treatment after an overdose reversal: ____.	
RI5. Number of new individuals referred to crisis services: ____.	
RI6. Number of new individuals referred to co-occurring treatment services: ____.	

AC. Access and Linkage to Care or Treatment

Access and linkage to care or treatment indicators track efforts to ensure individuals with behavioral health and related needs are supported to access and are linked successfully to services as needed.

--	--

Access and Linkage to Care or Treatment	Result
For annual targets, enter the total number of individuals your grant plans to link to care or treatment that is not funded by your grant during the federal fiscal year specified.	
For quarterly reporting, enter the total number of new individuals your grant successfully linked to care or treatment during the quarter.	
AC1. Number of new individuals linked to mental health services: __.	
AC2. Number of new individuals linked to substance use services: __.	
AC3. Number of new individuals linked to substance use treatment after an overdose reversal: ____.	
AC4. Number of new individuals linked to care for viral hepatitis, HIV, or other communicable disease: __.	
AC5. Number of new individuals linked to HIV pre-exposure prophylaxis (PrEP): _____.	
AC6. Number of new individuals linked to HIV post-exposure prophylaxis (PEP): _____.	
AC7. Number of new individuals linked to HIV treatment: .	
AC8. Number of new individuals linked to hepatitis B (HBV) treatment: ____.	
AC9. Number of new individuals linked to hepatitis C (HCV) treatment: ____.	
AC10. Number of new individuals linked to gonorrhea treatment: __.	
AC11. Number of new individuals linked to chlamydia treatment: __.	
AC12. Number of new individuals linked to syphilis treatment: ____.	
AC13. Number of new individuals linked to tuberculosis (TB) treatment: ____.	
AC14. Number of new individuals linked to recovery and resilience support: .	
AC15. Number of new individuals linked to educational or vocational support services: ____.	
AC16. Number of new individuals linked to employment support services: __.	
AC17. Number of new individuals linked to family support services: __.	
AC18. Number of new individuals linked to childcare services: ____.	
AC19. Number of new individuals linked to transportation services: __.	
AC20. Number of new individuals linked to housing support services: ____.	
AC21. Number of new individuals linked to recovery housing services: ____.	
AC22. Number of new individuals linked to peer coaching and mentoring: __.	
AC23. Number of new individuals linked to specialized population services: _.	
AC24. Number of new individuals linked to peer group/mutual support groups: _____.	
AC25. Number of new individuals linked to respite care: .	
AC26. Number of new individuals linked to therapeutic foster care: __.	
AC27. Number of new individuals linked to individualized advocacy or consultation: _____.	
AC28. Number of new individuals linked to family unification services: ____.	

AC29.Number of new individuals linked to other recovery support services: .	
AC30.Number of new individuals linked to linked to services for other health conditions: ____.	

BISV. Brief Interventions and Services

Brief interventions and services indicators track the number of individuals who received specific services and supports through the grant program.

Brief Interventions	Result
For annual targets, enter the total number of encounters your grant plans to provide during the federal fiscal year specified.	
For quarterly reporting, enter the total number of encounters and administration events your grant provided during the quarter.	
BI1. Number of brief intervention encounters for mental health: .	
BI2. Number of brief intervention encounters for substance use : _____.	
BI3. Number of brief treatment encounters for substance use: ____.	
BI4. Number of brief intervention encounters for suicide prevention: ____.	
BI5. Number of opioid overdose reversal medication (OORM) administration events: _____.	

Services	Result
For annual targets, enter the total number of individuals your grant plans to serve during the federal fiscal year specified.	
For quarterly reporting, enter the total number of new individuals your grant served during the quarter.	
SV1. Number of new individuals who received mental health services: ____.	
SV2. Number of new individuals who received therapy or counseling: ____.	
SV3. Number of new individuals who received group counseling: .	
SV4. Number of new individuals who received family counseling : _____.	
SV5. Number of new individuals who received psychiatric rehabilitation services: _____.	
SV6. Number of new individuals who received intensive day treatment: ____.	
SV7. Number of new individuals who received substance use treatment services: _____.	
SV8. Number of new individuals who received inpatient hospitalization treatment: _____.	
SV9. Number of new individuals who received residential/rehabilitation: ____.	
SV10. Number of new individuals who received outpatient treatment: ____.	
SV11. Number of new individuals who received withdrawal management: .	
SV12. Number of new individuals who received after care: .	
SV13. Number of new individuals who received medications for substance use disorder (SUD): _____.	

SV14. Number of new individuals who received medications for opioid use disorder (MOUD) by mobile medication units: ____.	
SV15. Number of new individuals who received medications for alcohol use disorder (MAUD) by mobile medication units: _.	
SV16. Number of new individuals who received suicide-specific services: ____.	
SV17. Number of new individuals who received viral hepatitis, HIV, or other communicable disease services: ____.	
SV18. Number of new individuals who received HIV PrEP: .	
SV19. Number of new individuals who received HIV PEP: .	
SV20. Number of new individuals who received treatment for HIV: _.	
SV21. Number of new individuals who received treatment for hepatitis B (HBV): ____.	
SV22. Number of new individuals who received direct acting antiviral-based treatment for hepatitis C (HCV) : ____.	
SV23. Number of new individuals who received treatment for gonorrhea: ____.	
SV24. Number of new individuals who received treatment for chlamydia: ____.	
SV25. Number of new individuals who received treatment for syphilis: ____.	
SV26. Number of new individuals who received treatment for tuberculosis (TB): ____.	
SV27. Number of new individuals who received support services that assist with recovery and resilience : _.	
SV28. Number of new individuals who received educational or vocational support services: ____.	
SV29. Number of new individuals who received employment support services: ____.	
SV30. Number of new individuals who received family support services: ____.	
SV31. Number of new individuals who received childcare services: ____.	
SV32. Number of new individuals who received transportation services: ____.	
SV33. Number of new individuals who received housing support services: ____.	
SV34. Number of new individuals who received recovery housing services: ____.	
SV35. Number of new individuals who received peer coaching and mentoring: ____.	
SV36. Number of new individuals who received specialized population services: ____.	
SV37. Number of new individuals who participated in peer group/mutual support groups: ____.	
SV38. Number of new individuals who received respite care: .	
SV39. Number of new individuals who received therapeutic foster care: ____.	
SV40. Number of new individuals who received individualized advocacy or consultation: ____.	
SV41. Number of new individuals who received family unification services: ____.	
SV42. Number of new individuals who received other recovery support services: ____.	

SV43. Number of new individuals who received services for other health conditions: _____.	
SV44. Number of new individuals who received primary health care services: _____.	
SV45. Number of new individuals who received maternal health care services: _____.	
SV46. Number of new individuals who received dental care services: _____.	
SV47. Number of new individuals who received other health care services: _.	
SV48. Number of new individuals who received case management services: _____.	
SV49. Number new individuals who received care coordination: _____.	
SV50. Number new individuals who received treatment planning: ____.	

BHC. Behavioral Health Crisis

Behavioral Health Crisis indicators track the number of individuals who received behavioral health crisis care.

Behavioral Health Crisis Services	Result
For annual targets, enter the total number of contacts your grant plans to connect with during the federal fiscal year specified.	
For quarterly reporting, enter the total number of contacts your grant connected with during the quarter.	
BHC1. Number of contacts who received mental health services: ____.	
BHC2. Number of contacts who received therapy or counseling: ____.	
BHC3. Number of contacts who received group counseling: .	
BHC4. Number of contacts who received family counseling: .	
BHC5. Number of contacts who received psychiatric rehabilitation services: _____.	
BHC6. Number of contacts who received intensive day treatment: _.	
BHC7. Number of contacts who received behavioral health crisis services: _.	
BHC8. Number of contacts who received mobile crisis response: ____.	
BHC9. Number of contacts who received crisis stabilization: .	
BHC10. Number of contacts who received crisis residential care: ____.	
BHC11. Number of contacts who received crisis follow-up care: .	
BHC12. Number of contacts who received crisis follow-up contacts (phone, chat, text, or other): _____.	
BHC13. Number of contacts linked to behavioral health crisis services: _____.	
BHC14. Number of contacts linked to care for suicide risk: .	
BHC15. Number of contacts linked with 911/emergency services: ____.	

TR. Training and Workforce Development

Training and workforce development indicators track the number of individuals who received specific types of training through grant funds, and the qualifications and skills of staff employed with grant funds. For reporting purposes, training must have specific objectives to improve knowledge, increase skills, obtain accreditation, or change practice.

Training and Workforce Development		Result
For annual targets, enter the total number of participants your grant plans to provide training during the federal fiscal year specified.		
For quarterly reporting, enter the total number of participants your grant trained during the quarter.		
TR1.	Number of mental health intervention training participants: .	
TR2.	Number of mental health intervention training participants who were behavioral health professionals: ____.	
TR3.	Number of trauma informed care training participants: ____.	
TR4.	Number of trauma informed care training participants who were behavioral health professionals: ____.	
TR5.	Number of suicide prevention and/or behavioral health crisis response training participants: _.	
TR6.	Number of suicide prevention and/or behavioral health crisis response training participants who were professional first responders: ____.	
TR7.	Number of suicide prevention and/or behavioral health crisis response training participants who were behavioral health professionals: ____.	
TR8.	Number of suicide prevention and/or behavioral health crisis response training participants who were medical health professionals: ____.	
TR9.	Number of substance use treatment training participants: ____.	
TR10.	Number of alcohol use disorder (AUD) training participants: .	
TR11.	Number of opioid use disorder (OUD) training participants: _.	
TR12.	Number of opioid use disorder (OUD) training participants who were professional first responders: ____.	
TR13.	Number of opioid use disorder (OUD) training participants who were behavioral health professionals: ____.	
TR14.	Number of opioid use disorder (OUD) training participants who were medical health professionals: .	
TR15.	Number of opioid overdose response training participants: _.	
TR16.	Number of opioid overdose response training participants who were professional first responders: ____.	
TR17.	Number of opioid overdose response training participants who were other key community sector members: ____.	
TR18.	Number of opioid overdose response training participants who were school personnel trained: ____.	
TR19.	Number of opioid overdose response training participants who were behavioral health professionals: ____.	
TR20.	Number of opioid overdose response training participants who were non-traditional community sector members: .	
TR21.	Number of opioid overdose response training participants who were other community members: _.	
TR22.	Number of opioid overdose response training participants who were	

family members of someone who experienced an opioid overdose: __.	
TR23. Number of opioid overdose response training participants who were individuals with lived experience: ____.	
TR24. Number of opioid overdose reversal medication (OORM) administration training participants: __.	
TR25. Number of screening and identification of opioid use disorder (OUD) training participants: __.	
TR26. Number of medication administration for opioid use disorder (MOUD) training participants: __.	
TR27. Number of non-opioid therapies training participants: ____.	
TR28. Number of peer support training participants who were individuals with lived experience: ____.	
TR29. Number of co-occurring mental health and substance use disorder intervention training participants: ____.	
TR30. Number of co-occurring mental health and substance use disorder intervention training participants who were professional first responders: ____.	
TR31. Number of viral hepatitis, HIV, or other communicable diseases participants: ____.	
TR32. Number of viral hepatitis, HIV, or other communicable diseases training participants who were behavioral health professionals: ____.	

IO. Individual Outcomes

Outcomes indicators track outcomes of grant program activities.

Individual Outcomes	Result
For annual reporting, report the total number of individuals for which your grant measured the following outcomes during the federal fiscal year and quarter.	
IO1. Number of opioid overdose reversals: _.	
IO2. Number of individuals who attempted suicide: _.	
IO3. Number of individuals who died by suicide: _.	
IO4. Number of families that successfully reunited with children in kinship or foster care arrangements through support services that assist with recovery: _____.	
IO5. Number of new individuals who completed their course of treatment for hepatitis C (HCV): ____.	
IO6. Number of new individuals who achieved a hepatitis C (HCV) cure (SVR4 or later): ____.	
IO7. Number of new emergency department (ED) patients: .	

IO8. Number of new ED patients treated for pain: _.	
IO9. Number of new ED patients treated with opioids for pain: .	
IO10. Number of new ED patients who received non-opioid therapies for pain: ____.	
IO11. Number of new emergency department (ED) patients who received an opioid prescription after receiving alternative therapies: ____.	
IO12. Number of new emergency department (ED) patients presenting with pain diagnosed with an opioid use disorder (OUD): ____.	
IO13. Number of ED patients with OUD to whom MOUD was provided in the ED: ____.	
IO14. Number of new patients with OUD who were referred to outpatient MOUD services: ____.	

STE. Stakeholder Engagement

Stakeholder Engagement (STE) indicators track whether individuals with lived experience, including mental health or substance use clients, consumers, and family members of clients or consumers, have opportunities for meaningful engagement.

Stakeholder Engagement	Result
For annual targets, enter the total number of individuals your grant plans to provide opportunities for engagement during the federal fiscal year specified.	
For quarterly reporting, enter the total number of individuals your grant provided opportunities for engagement during the quarter.	
STE1. [Q4 ONLY] Number of work group/advisory group/council members: ____.	
STE2. [Q4 ONLY] Number of work group/advisory group/council members who have lived behavioral health experience: .	
STE3. Number of new individuals with lived experience who provide behavioral health or recovery support services, including peer support or individual advocacy: ____.	
STE4. Number of new individuals with lived experience who completed peer support certification: ____.	

PC. Partnerships and Collaborations

Partnership/Collaboration (PC) indicators track newly established partnerships and collaborations by the grant recipient to implement grant program activities.

Partnership/Collaboration	Result
---------------------------	--------

For annual targets, enter the total number of organizations with which your grant plans to establish partnerships or collaborations.

For quarterly reporting, report the total new number of organizations with which your grant established partnerships or collaborations during the federal fiscal year and quarter.

PC1. Number of new organizations that entered partnerships or collaboration with your grant: .	
--	--

PC2. Number of new organizations that entered into formal written agreements: _____.	
---	--

QN: Quarterly Narrative: Progress Report Overview Updates

Please share updates for grant-funded activities during the reporting period related to overall programmatic implementation and to approved goals and objectives.

QN1. Overall Progress

Provide an update on progress completed during the reporting period related to overall programmatic implementation and to approved goals and objectives

QN2. Challenges or Barriers

If applicable, summarize challenges or barriers faced during the reporting period related to overall programmatic implementation and to approved goals and objectives and identified strategies to overcome them.

--

QN3. Accomplishments and Successes
